Daube Noster:

Daube noster, essays in legal history for David Daube, 1974 **Borkowski's Textbook on Roman Law** Paul J. du Plessis, 2020 Borkowski's Textbook on Roman Law is the leading contemporary textbook on Roman law Providing students with a clear and highly readable account of Roman private law and civil procedure it gives a comprehensive overview of both the historical context and modern relevance of Roman law today Translated extracts from the most important Latin legal sources the Digest and the Institutes of Justinian are included throughout Annotated further reading sections at the end of each chapter support further research Book jacket *The Right to Equitable Remuneration in South African Copyright Law* Julius Walther, The planned copyright reform is intended to implement a right to equitable remuneration for authors in the South African Copyright Act This dissertation examines the claim from a legal policy perspective After an introduction to the basics of the South African mixed legal system the foundations of contract and copyright law are examined This is followed by an analysis of the current remuneration practice with collecting societies and international legislation Against this background the work ends with theses on the effectiveness of the newly introduced right to equitable remuneration

Borkowski's Textbook on Roman Law Paul du Plessis, 2010-05-13 Borkowski's Textbook on Roman Law provides a clear and concise overview of Roman private law and civil procedure supported by numerous extracts in translation from the Digest and Institutes The book has been written with undergraduate students in mind and covers all key areas commonly taught on Roman law courses at undergraduate level Wrongful Damage to Property in Roman Law Paul J. du Plessis, 2018-05-15 Explores hieroglyphs as a metaphor for the relationship between new media and writing in British modernism The Law of Obligations Reinhard Zimmermann, 1996 This book is widely regarded as one of the most remarkable achievements in Roman Law and Comparative Law scholarship this century a fact attested to by the universal acclaim with which it has been received throughout Europe America and beyond As a work of Roman Law scholarship it fuses the vast volume of 20th century scholarship on the Roman law of obligations into a clear and very readable and in many ways original account of the law As a work of comparative law it traces the transformation of the Roman law of obligations over the centuries into what is now modern German English and South African law presenting the reader with a contrast between these legal systems which is unique both in its scope and its depth As a whole the book is written with a deep understanding of human nature and of many social economic and other forces that determine the face of the law *Essential Cases on Misconduct* Benedict Winiger, Ernst Karner, Ken Oliphant, 2018-01-22 The various national European legal systems offer a broad range of responses to the question of what can be regarded as wrongful behaviour or fault The present work systematically examines these two important prerequisites for tortious liability under the combined heading of misconduct Unlike current textbooks national casebooks and monographs it builds on the experiences gathered in the national legal systems over the past decades and thereby fills a major gap which still exists today It thus does what the previous volumes in

the Digest of European Tort Law series did for other key elements of tort law namely natural causation and damage Once again the publication contains a selection of the most important cases from 28 states across Europe as well as cases handed down by European Union courts it also highlights cases from earlier periods of legal history For each case the facts and the relevant court decision are presented and these are then accompanied by an analytical commentary In addition the editors provide comparative analyses of the cases reported and a special report is dedicated to how key decisions would be resolved under model European rules on tort law The editors believe that the material gathered here may provide guidance for an organic convergence of the national legal systems in Europe It constitutes the basis of an *acquis commun* that is infinitely richer though also much more complex than the rather bland and abstract concepts contained in national codifications European legislation and modern model rules

The Journal of Jewish Studies ,1979 **Studies in Jewish Legal History** Bernard S. Jackson,1974 To mark the occasion of David Daube s sixty fifth birthday his friends and pupils have contributed to a special volume on the subject of Jewish legal history These essays are intended as a tribute to a man whose historical and comparative approach to the study of Jewish and Roman law has provided revolutionary insights into the whole development and systematisation of the legal system Only part of the scope of Daube s work is represented by the subjects of these studies although they extend from Biblical law to a late mediaeval *responsum* modern Hebrew literature and contemporary legal philosophy All traditional areas of civil law including marine insurance and what we now call labour law are included However Jewish law cannot be pursued in isolation from the mainstream of Jewish studies and this volume includes papers on the Dead Sea Scrolls the Palestinian Targumim and capital jurisdiction in the Roman province of Judaea
