A Daughter's Geography Ntozake Shange, 1983 The noted poet playwright and novelist offers a collection of intensely personal poems intended to map out the geography of life and beauty that she would declare for her daughter [The SAGE Encyclopedia of Children and Childhood Studies](#) Daniel Thomas Cook, 2020-04-20 The SAGE Encyclopedia of Children and Childhood Studies navigates our understanding of the historical political social and cultural dimensions of childhood Transdisciplinary and transnational in content and scope the Encyclopedia both reflects and enables the wide range of approaches fields and understandings that have been brought to bear on the ever transforming problem of the child over the last four decades This four volume encyclopedia covers a wide range of themes and topics including Social Constructions of Childhood Children's Rights Politics Representations Geographies Child specific Research Methods Histories of Childhood Transnational Childhoods Sociology Anthropology of Childhood Theories and Theorists Key Concepts This interdisciplinary encyclopedia will be of interest to students and researchers in Childhood Studies Sociology Anthropology Psychology Education Social Welfare Cultural Studies Gender Studies Disability Studies **Catalog of Classroom Teaching Films for Georgia Schools** Georgia. Educational Media Services. Audio-Visual Unit, 1955 **Young People, Border Spaces and Revolutionary Imaginations** Stuart Aitken, Fernando Bosco, Thomas Herman, Kate Swanson, 2013-12-16 Drawing from discussions that pulled together child researchers working near the borders of Mexico the United States and Canada this book explores how material and metaphoric borders give way to young people's experimentations with cultural social and political change The contributors highlight the capacities of children to revolutionize thought and practice through creative re-imagining of the boundaries borders events circumstances and familial relations that affect their everyday lives The first section in different ways highlights borders and movements through them as a bricolage of images symbols tensions and joys In the second section the idea of a portable border is explored in three chapters that consider a migrant's lifecourse citizenship and political activism respectively The last section of the book brings together three chapters that uncover how youth resist confront and transform the borders that envelop their lives By weaving narratives pertaining to young people's creative stories transnational migrations personal identities pen pal programs masculinities inter-generational change border crossings political activism and addictions the contributors in toto raise the idea of young people taking bounded and embodied events places and institutions and moving them towards something emancipatory *sin fronteras* without borders This book was published as a special issue of *Children's Geographies* [The Juvenile Review; Or, Moral and Critical Observations on Children's Books; Intended as a Guide to Parents and Teachers, Etc](#) REVIEW., 1817 *Assessment in Geographical Education: An International Perspective* Theresa Bourke, Reece Mills, Rod Lane, 2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to

inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills
