relationship between Lu Xun world literature and the underlying processes of worlding situating his work as a writer and a translator in a global context both among and interacting with prominent international works and literary movements as well as influencing writers and readers in countries well beyond China As such it is a milestone in our understanding of this challenging always witty and engaging gadfly of the state Just as Lu Xun and His Legacy edited by Leo Ou fan Lee brought together much of the best in twentieth century scholarship on Lu Xun ours is a massive dose of good fortune to have Lu Xun and World Literature to steer us into the twenty first Jon Eugene von Kowallis University of New South Wales Sydney author of The Lyrical Lu Xun A Study of His Classical Style Verse Literary Remains Eileen J. Cheng,2013-04-30 Lu Xun 1881 1936 arguably twentieth century China s greatest writer is commonly cast in the mold of a radical iconoclast who vehemently rejected traditional culture The contradictions and ambivalence so central to his writings however are often overlooked Challenging conventional depictions Eileen J Cheng s innovative readings capture Lu Xun s disenchantment with modernity and his transformative engagements with traditional literary conventions in his modern experimental works Lurking behind the ambiguity at the heart of his writings are larger questions on the effects of cultural exchange accommodation and transformation that Lu Xun grappled with as a writer How can a culture estranged from its vanishing traditions come to terms with its past How can a culture severed from its roots and alienated from the foreign conventions it appropriates conceptualize its own present and future Literary Remains shows how Lu Xun s own literary encounter with the modern involved a sustained engagement with the past His creative writings which imitate adapt and parody traditional literary conventions represent and mirror the trauma of cultural disintegration in content and in form His contradictory uncertain and at times bizarrely incoherent narratives refuse to conform to conventional modes of meaning making or teleological notions of history opening up imaginative possibilities for comprehending the past and present without necessarily reifying them Behind Lu Xun s refusal to mourn that is his insistence on keeping the past and the dead alive in writing lies an ethical claim to recover the redemptive meaning of loss Like a solitary wanderer keeping vigil at the site of destruction he sifts through the debris composing epitaphs to mark both the presence and absence of that which has gone before and will soon come to pass For in the rubble of what remains he recovered precious gems of illumination through which to assess critique and transform the moment of the present Literary Remains shows how Lu Xun s literary enterprise is driven by a radical hope that in spite of the destruction he witnessed and the limits of representation his writings like the texts that inspired his own might somehow capture glimmers of the past and the present and illuminate a future yet to unfold Literary Remains will appeal to a wide audience of students and scholars interested in Lu Xun modern China cultural studies and world literature

**Mao's Road to Power: Revolutionary Writings, 1912-49: v. 6: New Stage (August 1937-1938)** Zedong Mao,Stuart Schram,2015-07-17 By 1936 after a decade of Civil War and even before the Xi an Incident Mao Zedong had begun talking about a New Stage of cooperation between the Guomindang and the Communist Party With the establishment of a framework

for cooperation between the two parties and as Japan began its brutal war against China Mao began to develop this theme more systematically in both the political and military spheres This volume documents the evolution of Mao s thinking in this area that found its culmination in his long report to the Sixth Enlarged Plenum of the Central Committee in October 1938 explicitly entitled On the New Stage and presented here in its entirety It was also during this period that Mao delivered a course of lectures on dialectical materialism after reading and annotating a number of works on Marxist theory by Soviet and Chinese authors These lectures from which On Practice and On Contradiction were later extracted are also translated here in their entirety

**Reinventing Licentiousness** Y. Yvon Wang,2021-03-15 Reinventing Licentiousness navigates an overlooked history of representation during the transition from the Qing Empire to the Chinese Republic a time when older hierarchical notions of licentiousness were overlaid by a new pornographic regime Y Yvon Wang draws on previously untapped archives ranging from police archives and surveys to ephemeral texts and pictures to argue that pornography in China represents a unique configuration of power and desire that both reflects and shapes historical processes On the one hand since the late imperial period pornography has democratized pleasure in China and opened up new possibilities of imagining desire On the other ongoing controversies over its definition and control show how the regulatory ideas of premodern cultural politics and the popular products of early modern cultural markets have contoured the globalized world Reinventing Licentiousness emphasizes the material factors particularly at the grassroots level of consumption and trade that governed proper sexual desire and led to ideological shifts around the definition of pornography By linking the past to the present and beyond Wang s social and intellectual history showcases circulated pornographic material as a motor for cultural change The result is an astonishing foray into what historicizing pornography can mean for our understandings of desire legitimacy capitalism and culture
