The Council for a Parliament of the World's Religions

Dawn Of Religious Pluralism

John Harwood Hick

Dawn Of Religious Pluralism:

The Dawn of Religious Pluralism Richard Hughes Seager, 1993 Nothing like the 1893 World's Parliament of Religions had been seen in the history of the world and nothing like it was to be seen for again for many years a gathering of representatives of numerous world religions for an exchange of views It was a turning point in American life presaging the multiculturalism of a century later This volume contains a selection of 60 representative and revealing addresses given to the Parliament with authoritative introductions and notes The addresses include contributions by Protestant mainstream ministers African Americans Roman Catholics Orthodox Christians Jews Muslims Buddhists Hindus and representatives of other Asian religions Also included are various points of contact and contention in which religious leaders attempted to analyze or reach out to their counterparts in other traditions

Saving Faith David Mislin, 2016-02-19 In *Saving Faith* David Mislin chronicles the transformative historical moment when Americans began to reimagine their nation as one strengthened by the diverse faiths of its peoples Between 1875 and 1925 liberal Protestant leaders abandoned religious exclusivism and leveraged their considerable cultural influence to push others to do the same This reorientation came about as an ever growing group of Americans found their religious faith under attack on social intellectual and political fronts A new generation of outspoken agnostics assailed the very foundation of belief while noted intellectuals embraced novel spiritual practices and claimed that Protestant Christianity had outlived its usefulness Faced with these grave challenges Protestant clergy and their allies realized that the successful defense of religion against secularism required a defense of all religious traditions They affirmed the social value and ultimately the religious truth of Catholicism Judaism Hinduism Buddhism and Islam They also came to view doubt and uncertainty as expressions of faith Ultimately the reexamination of religious difference paved the way for Protestant elites to reconsider ethnic racial and cultural difference Using the manuscript collections and correspondence of leading American Protestants as well the institutional records of various churches and religious organizations Mislin offers insight into the historical constructions of faith and doubt the interconnected relationship of secularism and pluralism and the enormous influence of liberal Protestant thought on the political cultural and spiritual values of the twentieth century United States

Deep Religious Pluralism David Ray Griffin, 2005-01-01 A groundbreaking scholarly work *Deep Religious Pluralism* is based on the conviction that the philosophy articulated by Alfred North Whitehead encourages not only religious diversity but deep religious pluralism Arising from a 2003 Center for Process Studies conference at Claremont Graduate University this book offers an alternative to the version of religious pluralism that has dominated the recent discussion especially among Christian thinkers in the West which has evoked a growing call to reject pluralism as such Renowned contributors of a diversity of faiths include Steve Odin John Shunji Yakota Sandra B Lubarsky Jeffery D Long Mustafa Ruzgar Christopher Ives Michael Lodahl Chung ying Cheng Wang Shik Jang and John B Cobb Jr

Talking Dialogue Karsten Lehmann, 2021-02-22 Throughout the last two decades the

modern dialogue movement has gained worldwide significance. The knowledge about its origins is however still very limited. This book presents a wide range of insights from eleven case studies into the early history of several important international interreligious interfaith dialogue organizations that have shaped the modern development of interreligious dialogue from the late nineteenth century up to the present. Based on new archival research they describe on the one hand how these actors put their ideals into practice and on the other how they faced many challenges as pioneers in the establishment of new interreligious interfaith organizational structures. This book concludes with a comparison of those case studies bringing to light new and broader historico-sociological understanding of the beginnings of international and multi-religious interreligious interfaith dialogue organizations over more than one century: The World's Parliament of Religions 1893, The Religions of the World Congress 1921, The World Congress of Faiths 1933, 1950, The Committee on the Church and the Jewish People of the World Council of Churches 1961, The Temple of Understanding 1968, The International Association for Religious Freedom 1969, The World Conference on Religion and Peace 1970, The Council for a Parliament of the World's Religions 1989, 1991, The Oxford International Interfaith Centre 1993, The United Religions Initiative 2000, The Universal Peace Federation 2005. Based on these analyses the authors identify three distinct groups with sometimes conflicting interests that are shaping the movement: individual religious virtuosi, countercultural activists, and representatives of religious institutions. Published in cooperation with the King Abdullah Bin Abdulaziz International Centre for Interreligious Intercultural Dialogue, Vienna.

The World's Parliament of Religions Richard Hughes Seager, 2009. Conceived as a magnificent display of the major religions of the world, the 1893 Parliament sought to unite all religion against irreligion. A singular moment in the creation of a more pluralistic religious culture in America, it introduced many Americans to Eastern religions and meditative practices such as yoga. Some in the Christian community saw the gathering as a sign of the approaching fulfillment of the missionary's hope to evangelize the world, while others saw a divided Christendom under threat from the religions of the East. Richard Hughes Seager explores this fascinating event in all its complexities and in a new preface summarizes recent research and reflects on religious pluralism in an age of religious extremism. **Joseph Smith, Jr.** Reid L. Neilson, Terryl L.

Givens, 2009-03-05. Mormon founder Joseph Smith is one of the most controversial figures of nineteenth-century American history and a virtually inexhaustible subject for analysis. In this volume fifteen scholars offer essays on how to interpret and understand Smith and his legacy. Including essays by both Mormons and non-Mormons, this wide-ranging collection is the only available survey of contemporary scholarly opinion on the extraordinary man who started one of the fastest-growing religious traditions in the modern world. **The Golden Dawn's 'Nationalist Solution': Explaining the Rise of the Far**

Right in Greece S. Vasilopoulou, D. Halikiopoulou, 2015-02-25. This book contextualizes the rise of the Golden Dawn within the Eurozone crisis. The authors argue that the movement's success may be explained by the extent to which it was able to respond to the crisis of the nation-state and democracy in Greece with its nationalist solution: the twin fascist myths of social

decadence and national rebirth **Problems of Religious Pluralism** John Harwood Hick,1985-10-07 **Early Mormon Missionary Activities in Japan, 1901-1924** Reid L. Neilson,2010 Provides an understanding of why the standard LDS missionary approach of the nineteenth and early twentieth centuries was so poorly suited for evangelizing the non Christian non Western peoples of Japan **After Pluralism** Courtney Bender,Pamela E. Klassen,2010-11-02 The contributors to this volume treat pluralism as a concept that is historically and ideologically produced or put another way as a doctrine that is embedded within a range of political civic and cultural institutions Their critique considers how religious difference is framed as a problem that only pluralism can solve Working comparatively across nations and disciplines the essays in *After Pluralism* explore pluralism as a term of art that sets the norms of identity and the parameters of exchange encounter and conflict Contributors locate pluralism s ideals in diverse sites Broadway plays Polish Holocaust memorials Egyptian dream interpretations German jails and legal theories and demonstrate its shaping of political and social interaction in surprising and powerful ways Throughout they question assumptions underlying pluralism s discourse and its influence on the legal decisions that shape modern religious practice Contributors do more than deconstruct this theory they tackle what comes next Having established the genealogy and effects of pluralism they generate new questions for engaging the collective worlds and multiple registers in which religion operates Religious Pluralism and Interreligious Theology Schmidt-Leukel, Perry,2017-02-16 **Montaigne and Religious Freedom** Malcolm Smith,1991 **Disciples of the State?** Kristin Fabbe,2019-03-28 As the Ottoman Empire crumbled the Middle East and Balkans became the site of contestation and cooperation between the traditional forces of religion and the emergent machine of the sovereign state Yet such strategic interaction rarely yielded a decisive victory for either the secular state or for religion By tracing how state builders engaged religious institutions elites and attachments this book problematizes the divergent religion state power configurations that have developed There are two central arguments First states carved out more sovereign space in places like Greece and Turkey where religious elites were integral to early centralizing reform processes Second region wide structural constraints on the types of linkages that states were able to build with religion have generated long term repercussions Fatefully both state policies that seek to facilitate equality through the recognition of religious difference and state policies that seek to eradicate such difference have contributed to failures of liberal democratic consolidation *Religious Pluralism* Giuseppe Giordan,Enzo Pace,2014-07-08 This volume illustrates both theoretically and empirically the differences between religious diversity and religious pluralism It highlights how the factual situation of cultural and religious diversity may lead to individual social and political choices of organized and recognized pluralism In the process both individual and collective identities are redefined incessantly moving along the continuum that ranges from exclusion to inclusion The book starts by first detailing general issues related to religious pluralism It makes the case for keeping the empirical the normative the regulatory and the interactive dimensions of religious pluralism analytically distinct while recognizing that in practice they

often overlap It also underlines the importance of seeking connections between religious pluralism and other pluralisms Next the book explores how religious diversity can operate to contribute to legal pluralism and examines the different types of church state relations eradication monopoly oligopoly and pluralism The second half of the book features case studies that provide a more specific look at the general issues from ways to map and assess the religious diversity of a whole country to a comparison between Belgian French views of religious and philosophical diversity from religious pluralism in Italy to the shifting approach to ethnic and religious diversity in America and from a sociological and historical perspective of religious plurality in Japan to an exploration of Brazilian religions old and new The transition from religious diversity to religious pluralism is one of the most important challenges that will reshape the role of religion in contemporary society This book provides readers with insights that will help them better understand and interpret this unprecedented transition *The Heart of Learning* Steven Glazer,1999-03 Explorations on how the everyday act of learning can enrich the soul Cover

Theology and the Religions Viggo Mortensen,2003 The academic study of religion is undergoing great changes in response to globalization Just as sociologists now find it necessary to think in terms of multiculturalism so religion scholars and theologians today must work in the context of multireligiosity Globalization is leading not only to multiethnic societies but also to plurality in religions and worldviews *Theology and the Religions A Dialogue* offers the first sustained analysis of the trend toward multireligiosity and its implications for the study of religion Drawing on the resources of cultural analysis religious studies and theology an international slate of scholars explores the relation of multiculturalism and multireligiosity the need for interreligious dialogue and the possibilities for a theology of religions This groundbreaking work is supported by case studies of various religious traditions in diverse cultures from around the world Special attention is paid to Christian theological reflection however since as a global religion Christianity is particularly challenged by multireligiosity Offering an engaging wide angle view of religion worldwide *Theology and the Religions* makes a vital contribution to our understanding of the forces shaping the future of religious and social life Contributors Kajsa Ahlstrand Theodor Ahrens Jan Martin Berentsen Ulrich Dehn Helene Egnell Marianne C Qvortrup Fibiger Patrik Friedlund Virginia Garrard Burnett Geomon K George Elisabeth Gerle Friedrich Wilhelm Graf Hans Hauge Ulf Hedetoft S Mark Heim Chris Hewer Klaus Hock Michael Ipgrave Andrew J Kirk Lene K hle Volker K ster Aasulv Lande Oddbjorn Leirvik Ole Skjerb k Madsen Hiromasa Mase Mogens S Mogensen Viggo Mortensen Johannes Nissen Klaus N rnberger Caleb Oladipo Tinu Ruparell Risto Saarinen Lamin Sanneh Olaf Schumann Notto R Thelle Joachim Track V tor Westhelle H S Wilson **Journal of Mormon History** ,2008 *World Faiths Encounter* ,1992 **Vidyodaya Journal of Social Science** ,1992 **Paths Toward Modernity** Olga Lomová,2008
