Applying: To Derrida J. Brannigan, Ruth Robbins, Julian Wolfreys, 1997-01-12 Striking out from a number of new headings and in a number of new directions each of the essays in this collection pushes at the borders of their topics disciplines and ways of thinking providing innovative and inventive insights into the work and application of Jacques Derrida on a diverse range of themes including Irish identity communication ethics love tele technology Victorian studies the limits of philosophy translation otherness and literature demonstrating that today despite repeated accusations over recent years that the work of Derrida has become passe there is more vitality and spirit in engaging with the writings of Derrida than ever before

Living Together: Elisabeth Weber, 2013 For Jacques Derrida the notions and experiences of community living and together never ceased to harbour radical in fact infinite interrogations In this volume the paradoxes impossibilities and singular chances that haunt the necessity of living together are evoked in Derrida's essay Avowing The Impossible around which the collection is gathered

Ambiguities of Witnessing Mark Sanders, 2007 The first book to explore the complex relationship between law and literature in testimony to crimes of apartheid before South Africa's Truth and Reconciliation Commission *Ambiguities of Witnessing* closely analyzes key individual testimonies Whereas most existing books on this and other truth commissions are weighed down by abstract legal and philosophical discussion this book does justice to witnesses public testimony in a fascinating and theoretically sophisticated investigation of questions of human rights mourning forgiveness and reparation Framed by the personal *Ambiguities of Witnessing* also meditates on what it means for the writer to respond to this epochal event in the history of post apartheid South Africa

The Discourse of the Syncope Jean-Luc Nancy, 2008 Nancy's classic study of the role of language in Kant demonstrates why the question of how to write philosophy of philosophical style is not just ancillary to critical philosophy but goes to the heart of the project of establishing human reason in its autonomy and freedom

Literature, Philosophy, Nihilism Shane Weller, 2008-09-11 This book charts the history of the concept of nihilism in some of the most important philosophers and literary theorists of the modern and postmodern periods including Wyndham Lewis Heidegger Adorno Blanchot Derrida and Vattimo Focusing in particular on the ways in which each of these thinkers produces a theory of the literary as the privileged form of resistance to nihilism Weller offers the first in depth analysis of

nihilism's key role in the thinking of the aesthetic since Nietzsche

Universality and Translation Gavin Arnall, Katie Chenoweth, 2025-01-07 Within contemporary theory the concepts of translation and universality have frequently been associated with different and even opposed philosophical and political projects watchwords of either domination or liberation the erasure of difference or the defense of difference The universalizing drives of capitalism colonialism and other systems of oppression have precipitated widespread suspicion of any appeal to universality This has led some in turn to champion the very notion of universality as antithetical to these systems of oppression Similarly recent scholarship has begun to grapple with the fundamental role of translation not only in forging inclusive democratic politics but also by contrast in violence including imperial expansion and global war The present volume advocates neither for nor against translation or universality as such Instead it attends to their insurmountable ambiguity and equivocity the tensions and contradictions that are internal to both concepts and that exist between them Indeed the wager of this volume is that translation universality and their relationship name irreducible yet overlapping sites of struggle for a diverse array of struggles on the Left Drawing from multiple intellectual traditions and orientations with a special emphasis on deconstruction and Marxism this volume both reveals and participates in a subterranean current of thought committed to theorizing the dynamic plural and ultimately inextricable relationship between translation and universality Its contributors approach this problem in ways that challenge and unsettle dominant trends within translation studies and critical and postcolonial theory thereby opening new lines of inquiry within and beyond these fields

Skirting the Ethical Carol Jacobs, 2008 Skirting the Ethical offers highly original readings of six works each noted for its politico ethical stance The first four Sophocles Antigone Plato's Symposium and Republic and Hamann's Aesthetica in nuce have a recognized and honored place in the canon The last two Sebald's The Emigrants and Jane Campion's film The Piano are exemplary for our contemporary scene Nevertheless the straightforward assumptions about justice divine and state power the good and identity politics that every reader or viewer inevitably comes upon are disrupted when one takes into account the role of language both the way in which language is talked about and the way in which it performs What emerges is a non prescriptive ethics of another order that offers a resistance to power and simplistic conceptualizations of truth an emancipation from the must be that implies an ever to be renewed renegotiation a responsibility that has much to do with the act of critique or interpretation

Europe, Or The Infinite Task Rodolphe Gasché, 2009 Gasché's latest book explores the concept or idea of Europe in the philosophies of Husserl Heidegger Patoka and Derrida and how it is linked to the notions of rationality universality world the relation the other and responsibility

Acting Out Bernard Stiegler, 2009 Acting Out is the first appearance in English of two short books published by Bernard Stiegler in 2003 In How I Became a Philosopher he outlines his transformation during a five year period of incarceration for armed robbery Isolated from what had been his

world Stiegler began to conduct a kind of experiment in phenomenological research Inspired by the Greek stoic Epictetus Stiegler began to read write and discover his vocation eventually studying philosophy in correspondence with Gerard Granel who was an important influence on a number of French philosophers including Jacques Derrida who was later Stiegler's teacher The second book *To Love To Love Me To Love Us* is a powerful distillation of Stiegler's analysis of the contemporary world He maintains that a growing loss of a sense of individual and collective existence leads to a decreased ability to love oneself and by extension others This predicament is viewed through a tragic event in 2002 in Nanterre France Richard Durn a local activist stormed the city's town hall shooting and killing eight people Durn committed suicide the following day The later publication of Durn's his journal revealed a man struggling with the feeling that he did not exist for which he tried to compensate by committing an atrocity For Stiegler this exemplifies how love of self becomes pathological a me assassinates an us with which it cannot identify *AB Bookman's Weekly*, 1996 *Choice*, 2007
