**International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences** ,2000 **The Trouble With Community** Vered Amit,Nigel Rapport,2002-08-20 Community is one of social science s longest standing concepts The assumption of much social science has been that humans belong in communities as social and cultural beings The trouble with community is that this is not necessarily so the personal social networks of individuals actual experience crosscut collective categories situations and institutions Communities can prove unviable or imprisoning the reality of community life and identity can often be very different from the ideology and the ideal In this book the authors draw on their ethnographic experiences to reappraise the concept and the reality of community in the light of globalisation religious fundamentalism identity politics and renascent localisms How might anthropology better apprehend social identities which are intrinsically plural transgressive and ironic What has anthropology to say about the way in which civil society might hope to accommodate the ongoing construction and the rightful expression of such migrant identities
