## **Construction Collaboration Technologies An Extranet Evolution:**

*Construction Collaboration Technologies* Paul Wilkinson, 2005-11-16 Since the late 1990s web based collaboration technologies project extranets have become increasingly widely used within the UK construction industry and are now routinely deployed on the design and construction of thousands of projects The first book dedicated to the topic this comprehensive guide will help current and future construction professionals understand implement and use such systems more effectively Cutting through the hype and jargon it offers expert advice and guidance from an industry insider on choosing a software provider key software features hosting legal issues connectivity achieving user buy in and assessing the benefits

**e-Business in Construction** Chimay J. Anumba, Kirti Ruikar, 2009-01-21 With a number of disparate often geographically distributed organisations involved in the delivery of construction projects there has been considerable interest in e business tools within the construction industry These tools open up a range of possibilities for the industry to rethink existing processes and working methods so their use is increasingly common Nevertheless there has been little definitive guidance for practitioners researchers and students on the major issues in electronic business from a construction perspective By bringing together 16 contributions from research and industry covering theory technological issues practical implementation and legal matters and illustrated with a number of case studies *e Business in Construction* fills that gap Starting with the theoretical aspects of e commerce and moving on to consider the specifics of the construction context it includes a mechanism for the assessment of the e readiness of construction sector organisations The middle part of the book focuses on the role of various technologies in e business with examples included as appropriate This is followed by a discussion of practical legal and trust issues The potential of next generation of information and communication technologies is also addressed With a fine blend of theoretical and practical aspects of e commerce in construction and well illustrated with a number of industrial case studies *e Business in Construction* will find an appreciative audience of construction practitioners researchers and students at all levels

*Advances in Construction ICT and e-Business* Srinath Perera, Bingunath Ingirige, Kirti Ruikar, Esther Obonyo, 2017-05-08 This internationally conducted study of the latest construction industry practices addresses a broad range of Information and Communication Technology applications Drawing on research conducted in the US and UK this book presents the state of the art of various ebusiness processes and examines BIM virtual environments and mobile technologies Innovation is a theme that runs throughout this book so in addition to the direct impact of these new technical achievements it also considers the management styles that helped them to emerge Examples from industry are illustrated with case studies and presented alongside research from some of the best known academics in this field This book is essential reading for all advanced students and researchers interested in how ICT is changing construction management and the construction industry

*Managing Diversity and Equality in Construction* Andrew W. Gale, Marilyn J. Davidson, 2006-07-28 With women in the UK construction industry constituting just thirteen per cent of the

workforce and black and Asian workers numbering less than two per cent despite representing more than six per cent of the working population diversity is a problem that the construction industry needs to tackle directly In this title diversity management is presented as an opportunity for the construction industry Work is presented from several different countries and regions in North America Australia and Europe to provide a comprehensive picture of this complex and often sensitive issue Going beyond the traditional topics of gender and racial discrimination contributions encompass a wide range of diversity issues facing the construction industry including sexual orientation disability and the work life balance Essential reading for construction managers and a valuable resource for post graduate researchers this key title provides not only a thorough exposition of contemporary research but also supplies the practical diagnostic tools and techniques to successfully manage diversity in construction and the information to adhere to the law
