Call For Peace The Implications Of Japans Warrenouncing Constitution:

A call for peace Charles M. Overby,1997 **Spiritual and Political Dimensions of Nonviolence and Peace** David Boersema,Katy Gray Brown,2006 This book is a collection of philosophical papers that explores theoretical and practical aspects and implications of nonviolence as a means of establishing peace The papers range from spiritual and political dimensions of nonviolence to issues of justice and values and proposals for action and change **Encyclopedia of Violence, Peace, and Conflict** ,2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world **Poems of War and Peace** □□□□□,□□□□□,2007-08 *Toward a Peaceable Future* Yōichirō Murakami,Noriko Kawamura,Shin Chiba,2005 In a pioneering cross cultural transnational and multifaceted endeavor Japanese and American scholars from various disciplines jointly explore challenging questions by redefining the three key concepts of peace security and kyosei The book offers new perspectives for interdisciplinary peace studies and stimulates a public dialogue on how to shape a safer and more peaceful future for individuals communities and nations **The Indian Journal of International Law** ,1999 Issues for 1960 include a section of official documents **Cardozo Journal of International and Comparative Law** ,2005 **Defining the Field of Comparative Constitutional Law** Vicki C. Cooney,2000 The EU-Japan Partnership in the Shadow of China Axel Berkofsky,Christopher W. Hughes,Paul Midford,Marie Söderberg,2018-06-27 Both the European Union and Japan have been major beneficiaries and supporters of the liberal international order first led by the United States since the end of World War II During this period they have emerged as global powers however the very order that nurtured their rise is now facing twin threats First through authoritarian China s promotion of alternative models of global governance and second from a crisis of liberalism manifested in the policies of President Donald Trump and Brexit This book explores these challenges faced by both the EU and Japan providing a multidisciplinary approach to studying the relationship between the two It analyses their cooperation in terms of security defence and trade and examines how their shared normative values are ultimately implemented Having recently concluded an Economic Partnership Agreement and with a Strategic Partnership Agreement in the pipeline this book asks whether they can convert their latent and modest cooperation into an alternative form of leadership and an antidote to the illiberal tide sweeping the developed world As the first book to shed light on the new Economic Partnership Agreement between the EU and Japan this book will be useful to students and scholars of Japanese Studies as well as European Union politics and international political economy more generally **Encyclopedia of Violence, Peace, & Conflict: G-Po** Lester

R. Kurtz,2008 Provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life An essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change

Japan Political Research ,1999 **Japan's Options for the 1980s** Radha Sinha,2010-10-18 Japan s economic success since the 1950s created a range of serious domestic and international problems which threaten the stability of the country Within Japan at the start of the 1980s there was a strong mood on the right for remilitarization to give the nation the super power status her economic performance justified Outside Japan there was increasing pressure from the West to make her conform to Western strategic interests Against the background of these crucial issues the book analyzes the economic political and military options open to Japan Focussing on the interconnecting themes of foreign harassment and domestic economic disorder the author points out many areas of similarity between Japan of the 1930s and Japan of the 1980s

acquired nuclear capabilities Japan may need to rethink its foreign and security policy which are deeply anchored on its alliance with Washington In the light of these new challenges this paper considers potential problems and constrains in Tokyo s current strategy and suggests it may not be in Japan s best interest to continue pursuing them Finally alternatives to Japan s security policy are considered and this paper concludes that no single alternative could replace the U S Japan alliance as an effective security policy in the foreseeable future Rather all the alternatives pursued together would potentially lead to an efficacious option consequently providing Japan s foreign policy with greater independence from the United States
