Cornwall, Connectivity and Identity in the Fourteenth Century S. J. Drake,2019 The links between Cornwall a county frequently considered remote and separate in the Middle Ages and the wider realm of England are newly discussed WINNER The Federation of Old Cornwall Societies FOCS Holyer an Gof Cup for non fiction 2020 Stretching out into the wild Atlantic fourteenth century Cornwall was a land at the very ends of the earth Within itsboundaries many believed that King Arthur was a real life historical Cornishman and that their natal shire had once been the home of mighty giants Yet if the county was both unusual and remarkable it still held an integral place in the wider realm of England Drawing on a wide range of published and archival material this book seeks to show how Cornwall remained strikingly distinctive while still forming part of the kingdom It argues that myths saints government and lordship all endowed the name and notion of Cornwall with authority in the minds of its inhabitants forging these people into a commonalty At the same time the earldom duchy and the Crown together helped to link the county into the politics of

England at large With thousands of Cornishmen and women drawn east of the Tamar by the needs of the Crown warfare lordship commerce the law the Church and maritime interests connectivity with the wider realm emerges as a potent integrative force Supported by a cast of characters ranging from vicious pirates and gentlemen criminals through to the Black Prince the volume sets Cornwall in the latest debates about centralisation devolution and collective identity about the nature of Cornishness and Englishness themselves S J DRAKE is a Research Associate at the Institute of Historical Research He was born and brought up in Cornwall
