Artificial Mythologies:

Artificial Mythologies Craig J. Saper, 1997-01-01 Mythologies Roland Barthes, 1972 No denunciation without its proper instrument of close analysis Roland Barthes wrote in his preface to *Mythologies* There is no more proper instrument of analysis of our contemporary myths than this book one of the most significant works in French theory and one that has transformed the way readers and philosophers view the world around them *International Relations Theory* Cynthia Weber, 2013-11-05 *International Relations Theory A Critical Introduction* is an innovative new textbook which introduces students to the main theories in International Relations It also deconstructs each theory allowing students not only to understand them but also to critically engage with the assumptions and myths that underpin them It does this by using five familiar films as tools for first understanding each theory and then for understanding the myths that make them so persuasive for some people Key features of this textbook include coverage of the main theories and traditions including Realism Idealism and Neo idealism Liberalism Constructivism Postmodernism Gender Globalisation and the End of History innovative use of narratives from five famous films that students will be familiar with *Lord of the Flies Independence Day Wag the Dog Fatal Attraction and The Truman Show* clearly written providing students with boxed key concepts guides to further reading and thinking This breakthrough textbook has been designed to unravel the complexities of International Relations theory in a way that allows students a clearer idea of how the theories work and some of the myths that are associated with them **The Philosophy of Literary Amateurism** Naomi Lebowitz, 1994 In this coherent intense study Naomi Lebowitz defines and explores what she calls the philosophy of literary amateurism With expert readings of the works of major international writers of the Western tradition Lebowitz passionately argues that all great writing is guided by a moral complexity and richness Lebowitz defines literary amateurism as an attitude of anti professionalism that allows a writer to explore and represent experience with complexity and moral fluidity Citing Montaigne as the father of this philosophy Lebowitz explores the work of such followers of Montaigne as Emerson Balzac Dickens Henry James Conrad William James Santayana Wallace Stevens Virginia Woolf and Italo Svevo comparing their work to that of more self consciously professional writers like Flaubert Taine Rousseau and Proust In a hyper professional age of criticism marked by formulaic and political dictation and syntax Lebowitz tries to recover the amateur perspective naturally carried by great literature s form and play *The Philosophy of Literary Amateurism* makes a lasting contribution to the recovery of more generous relations between life and literature *Mother-Texts* Julie Kelso, Marie Porter, 2010-07-12 Every day human beings tell and are told stories sometimes in obvious ways sometimes not Most of our communication with each other direct or indirect involves narrative production and reception Narrative is constitutive of human being However whose narratives are heard Feminists argue that the relations between language knowledge gender and power particularly the question as to whether man made and controlled language is a material fit to receive and convey woman s stories are critical issues because

historically patriarchy has worked to silence women's dialogue. Male knowledge unsurprisingly created and continues to create unrepresentative maternal narratives which lead to unreal expectations of mothers and motherwork. It is therefore disconcertingly significant for mothers that neither mothers nor their motherwork have been considered worthy of historical record nor are historical records usually written from a mother's perspective. Hence the narrative research in this book which gives recognition to motherhood, mothers and or the work they do is valuable. It adds to the rapidly accumulating maternal research research that is now available for the historical record. Mothers are speaking up developing a canon of literature research narrated in maternal language and claiming maternal knowledge and power.

Modern Jewish Mythologies Glenda Abramson, 2000 *Modern Jewish Mythologies* presents ten essays each of which seeks to demonstrate the function and dynamic effect of myths in Jewish social political and psychological life. The essays are based on the Mason Lectures delivered at the Oxford Centre for Hebrew and Jewish Studies in the winter of 1995

Contemporary Literary Criticism Jeffery Hunter, 2005-04 Each volume profiles about six to eight novelists poets playwrights short story writers and other creative and nonfiction writers who are currently active or who died after Dec 31 1999. Recreating American Mythology. Vietnam Veterans in Oliver Stone's "Born on the Fourth of July" and "Heaven & Earth" Thomas Hunziker, 2020-06-22 Seminar paper from the year 2001 in the subject English Language and Literature Studies Literature grade 5.5 Schweiz University of Zurich Englishes Seminar course Seminar From Disneyland to Da Nang language English abstract The myth of the United States was that they are invincible and this was also reflected in the war movies and westerns during and after World War II. When the US entered the Vietnam War the experience of the soldiers proved to be different from the representations of war they had witnessed in movies. The traditional combat films were unable to adapt the new signifiers of the Vietnam war and the genre was abandoned for a while. Rejecting the notion of invincibility directors after the Vietnam War depicted the horror and madness of the conflict and indeed rebuilt a new myth. One of the directors

who decided to craft a new combat film was Oliver Stone While he received critical praise for Platoon 1986 and his depiction of the Vietnam War was confirmed by many veterans he was publicly denounced as a traitor and attacked for the representation of the war in Born on the Fourth of July 1989 Although his most hostile critics chose to attack the alternation of facts Stone was and still is criticized or applauded for debunking old myths and creating new ones For an investigation of Oliver Stone s technique of creating new myths this essay analyzes his films Born on the Fourth of July and Heaven Earth 1993 *Selected Letters: 1934-1937* Howard Phillips Lovecraft,1965
