Transformational Reminiscence John A. Kunz, Florence Gray Soltys, 2007-04-23 As recently as fifty years ago people believed that reminiscing was a sign of senility Today along with a greater understanding of the significance of reminiscence we have seen the rising popularity of private memoirs in various forms from oral histories by universities to audio and videotapes for family archives John A Kunz and Florence Gray Soltys have made a major contribution to the field by providing a framework for individuals and groups engaged in this enriching and important work Robert N Butler MD Finally a book that takes a big picture look at the complexities of using life story work with older adults Using the life story matrix as a framework the authors and their contributors cover the complexities of reminiscence and life review techniques and advice for making a personal story public and the delicate balance of when to focus on content and when the process of telling one's life story can be therapeutic or destructive Transformational Reminiscence teaches the reader how to use the full spectrum of life story approaches to enhance quality of life for older adults ameliorate social and psychological problems and intervene if they occur Practical applications anecdotes exercises that help clarify the experiential side of the content and helpful suggestions enhance each chapter and ensure a safe and ethical application of this technique This book is a must read for anyone who uses a life story approach in his or her work with older adults or is teaching or supervising others in doing so

REMINISCENCE OF LOVE NAZIA HASSAN, 2021-06-05 Human heart is a blend of emotions and the best of the emotions that we can feel is LOVE Reminiscences of Love is a celebration to the love that we feel through the important relationships of our lives The writers have very beautifully penned down their emotions here It visualises love into words explicitly Let's abide this journey of love together **Reminiscence Work with Old People** Clare Gillies, Anne James, 2013-11-11 Perhaps being old is like having lighted rooms Inside your head and people in them acting People you know but can't quite name Philip Larkin This book is about those very old people who have a great many memories but few friends left to share them with It is about valuing and using their memories to enhance the quality of their lives that is about reminiscence work Many

professionals offer this help to older people including nurses social workers occupational therapists and clinical psychologists as do families and voluntary workers Its elements can be incorporated into day to day contacts with older people or it may take place in more structured settings The transitional period from mature middle age to dependent old age is neither distinct nor precise It does not occur at an identifiable time it may be prolonged and it may not be obvious to the old people or their families Loss of autonomy the inability to cope unaided with the tasks of daily living and increasing physical and mental frailty probably signal the area of transition The diminished self confidence that some old people feel at this time may be compounded by personal loss and financial difficulties enforced changes in their lifestyles may also add to their confusion
