Ashkelon Discovered Lawrence E. Stager, 1991 **Multilingualism in Ancient Contexts** Louis C. Jonker, Angelika Berlejung, Izak Cornelius, 2021-05-03 Multilingualism remains a thorny issue in many contexts be it cultural political or educational Debates and discourses on this issue in contexts of diversity particularly in multicultural societies but also in immigration situations are often conducted with present day communicational and educational needs in mind or with political and identity agendas This is nothing new There are a vast number of witnesses from the ancient West Asian and Mediterranean world attesting to the same debates in long past societies Could an investigation into the linguistic landscapes of ancient societies shed any light on our present day debates and discourses This volume suggests that this is indeed the case In fourteen chapters written and visual sources of the ancient world are investigated and explored by scholars specialising in those fields of study to engage in an interdisciplinary discourse with modern day debates about multilingualism A final chapter by an expert in language in education responds critically to the contributions in the book to open avenues for further interdisciplinary engagement together with contemporary linguists and educationists on the matter of multilingualism **The Agora Bone Well** Maria A. Liston, Susan I. Rotroff, Lynn M. Snyder, 2018-12-31 Even though Dorothy Thompson excavated the Agora Bone Well in 1938 the well and its remarkable finds have never been fully studied until now Located outside the northwest corner of the Athenian Agora and dating to the second quarter of the 2nd century B C the well contained the remains of roughly 460 newborn infants as well as a few older individuals Also found in the well were the bones of over 150 dogs and an assortment of other animals plus various artifacts including an intriguing herm treated here by Andrew Stewart and an ivory chape In addition to a thorough examination of the contents of the well the authors provide a thoughtful analysis of the neighborhood in which the well was located and carefully compare the deposit with similar accumulations found elsewhere in the Mediterranean The product of close cooperation between archaeological palaeoanthropological and faunal scholars this interdisciplinary work will be of interest to a large audience across a variety of fields **"Each Man Cried Out to His God"** Aaron J.
