Asia Rising:

Vietnam: Asia's Rising Star Brook Taylor, Sam Korsmoe, 2023-10-15 The drivers behind the world's most exciting growth story For more than 25 years Vietnam has been one of the most dynamic countries in the world in terms of GDP growth trade investment and other business metrics The key question is whether or not the country can continue this growth for another 25 years If it can Vietnam will become a high income country like South Korea and Taiwan the original Tiger Economies of Asia Engaging in conversations about Vietnam's future is challenging Locals are often too focused on the present while foreigners are caught up in legacy and political issues of the past Many observers also focus on the short term a specific economic metric or inevitably Vietnam's political system without considering the big picture or recognizing long term trends The authors researched and analyzed a broad range of drivers to assess a possible future for Vietnam and Vietnam Asia's Rising Star is the result of these efforts What Others Are Saying Vietnam Asia's Rising Star should be read by anyone with an interest in Vietnam and anyone else with an interest in the future of Asia Carlyle A Thayer professor emeritus University of New South Wales Canberra

Asia Rising Jim Rohwer, Jim Rowher, 1996-11-06 From Simon Schuster Asia Rising is Jim Rowher's thesis on why America will prosper as Asia's economies boom Rohwer contends that rather than posing a threat to American business the revitalization of Asia's economic strength opens tremendous new markets and vast financial and business opportunities for forward thinking companies all this despite Asia's traditional role as a source of cheap labor

Asia Rising: Who Is Leading? Amitav Acharya, 2008-01-24 China India and Japan are among the biggest players in the global economy today However Asia's future depends not just on its impressive growth rates or its immense natural resources and human talent rather it also hinges on the quality of leadership provided by the major nations and associations of Asia and their ability to overcome persisting rivalries and respond to new transnational challenges Conflict and cooperation are the two central themes of this book a collection of commentaries and opinion pieces by Professor Amitav Acharya from various newspapers and publications from 2002 to 2006 It covers a wide range of issues such as the rise of China Asia's leadership legacy and the role of ASEAN Also discussed are the fate of democracy in Asia and the implications of transnational dangers and the changing world order for Asia

Energy, Trade and Finance in Asia Tai Wei Lim, 2015-10-06 This study offers a vital reappraisal of the trade relationship between north east Asia and the Gulf Writing from a non western standpoint Dargin and Lim make a compelling case for how these regions became economically integrated in the wake of the 1973 oil crisis

Inequality in Asia and the Pacific Ravi Kanbur, Changyong Rhee, Juzhong Zhuang, 2014-02-24 Asia's rapid economic growth has led to a significant reduction in extreme poverty but accompanied by rising inequality This book deals with three questions What have been the trends of inequality in Asia and the Pacific What are the key drivers of rising inequality in the region How should Asian countries respond to the rising inequality Technological change globalization and market oriented reform have been the key drivers of Asia's remarkable growth and

MacDonald, Jonathan Lemco, 2011-10-20 This expert analysis looks at what the increasing economic and political prominence of China and other Asian nations means to the West and the rest of the world *Asia's Rise in the 21st Century* is a wake up call to the West offering a sophisticated assessment of a group of nations that are becoming essential markets for U S trade industry and finance even as they increasingly represent fierce competition for global markets The work traces changes that launched the region down the path to potential economic and political ascendancy and it looks at various factors from politics to economics to demographics that affect Asia now and will continue to do so in the future China's prominence is explored in the context of

how it complements and competes with the rest of Asia especially Japan and India and how it interacts with other major emerging market countries such as Brazil Russia and Turkey The book also looks at the challenge China s ascendancy poses to the assertion that a successful capitalist system must be accompanied by political democracy Finally the authors suggest ways in which Asia s rise can be accommodated in the West and elsewhere and offer thoughts on where Asia and especially China will be in 2030
