the chapter on The Artisan and Craftsman examines the quality condition and authenticity of works in areas such as arms armor glass ivory and jewelry The book contains appendixes of chronological tables and major marks on Chinese and Japanese works of art as well as an index and a fine bibliography The narrative does not confuse readers new to the subject with excessive detail and the photographs are clear and very instructive A beautiful book at a reasonable price this volume contains an amazing wealth of information on a very broad subject Recommended for both public and academic libraries
