INTRODUCTION TO ASIAN AMERICAN STUDIES

This course introduces students to historical formations and contemporary experiences of Asian Americans and Pacific Islanders in the United States and beyond. Deploying a transdisciplinary approach, we look at and develop an in-depth understanding of Asian American Studies as a complex and dynamic field of critical histories and theoretical interventions.

Who is Asian American? Who is excluded from the category? How and why have historical formations of Asian American been shifting over time? Who and what determines how this shifting takes place?

This course, which draws upon transdisciplinary scholarships that represent differences among Asian American and Pacific Islander experiences, identities, and places/spaces, is comprehensive and extensive.
