Asian Capital Markets:

The Pacific-Asian Capital Markets and Regional Financial Co-operation William Guttman,1989 **Asian Capital Markets** Lilia C. Clemente,Roberto S. Mariano,1992 Asian Capital Markets ,1993 Asian Capital Market Development and Integration Asian Development Bank,Korea Capital Market Institute,2014 The fiscal crisis in Europe continues to cast a shadow on the global economic outlook and the securities issued by the United States and European nations are losing their status as traditional safe assets and reserve value As a result investors and governments are looking to diversify their investment portfolio with emerging markets particularly Asian bonds Such renewed interest has led to excessive capital inflows making the region increasingly vulnerable to external shocks However on the other hand it leads to abundant liquidity in the capital markets which reduces financing costs and expands investment opportunities This book analyses this dilemma and proposes that development of local bond markets and achieving greater market depth and interconnectedness is the best bet to prevent the reoccurrence of a currency crisis like 1997 It thus assesses the progress achieved thus far in capital market integration in Asia and compares it with its global peers The study also assesses the degree to which volatility in equity and bond market returns driven by financial turmoil originating at both the regional and global levels spills over into emerging Asia domestic equity and bond markets The results of this analysis indicate that such spill over significantly impacts both domestic equity and bond markets in the region This finding suggests that on going regional capital market integration initiatives should take into account the risk of contagion that regional financial integration presents and introduce measures for mitigating such risk as a means of ensuring financial stability in the region **Rising Asian Capital Markets** Theodore Bos,Thomas A. Fetherston,1993 Asia Capital Markets Monitor Asian Development Bank,2011-08-01 The two speed global economy continues to favor emerging Asian markets After an early year correction the region s markets are poised to gain on sound fundamentals The Asia Capital Markets Monitor reviews emerging Asia s stock bond and currency markets and assesses their outlook risks and policy implications This issue includes a special section on financial integration and capital flow volatility in emerging Asia issues and policies *Asian Capital Markets* Lilia C.
