What is a Parent Andrew Bainham, Shelley Day Sclater, Martin Richards, 1999-08-23 This book presents an interdisciplinary exploration of the nature of parenthood and its various manifestations in contemporary society

What's Wrong with Children's Rights Martin Guggenheim, 2007-09-30 From foster care to adoption to visitation rights and beyond Guggenheim offers an analysis of the most significant debates in the children's rights movement He argues that children's rights can serve as a screen for the interests of adults who may have more to gain than the children for whom they claim to speak

**The Law of Husband and Wife, of Parent and Child, Guardian and Ward, Master and Servant** Tapping Reeve, 1888

*Child Law* Harry D. Krause, 1992 Part of the International Library of Essays in Law and Legal Theory this text examines issues of child law Amongst the areas covered are children's rights parental rights the best interest of the child child custody on divorce and the child support obligation

**The Voice of a Child in Family Law Disputes** Patrick Parkinson, Judy Cashmore, 2008-12-18 When relationships break down disputes commonly arise over the parenting arrangements for children whose living arrangements have to be reorganized at a time of great conflict and turmoil Most such disputes are resolved without a judicial determination through private agreement negotiation between lawyers mediation or a combination of these methods This book examines whether and how children should be involved in the process of resolving family law disputes Although there is widespread acceptance in the Western world that the views of children should be taken into account and that the weight given to those views should depend on their age and maturity there is much less agreement about how children's voices should be heard There are many benefits to giving children a voice in decisions that affect their lives and the UN Convention on the Rights of the Child identifies this as a right for children However there are difficulties and dangers in seeking to hear from children not least because they may be subject to pressure from each parent to express views that support his or her case Courts dealing with family law issues are constantly faced with a dilemma Is it better to keep children out of the conflict or to give them a say so that the arrangements are as workable for them as possible This book integrates examinations of these issues with empirical data from interviews which

explore the views and experiences of children parents counsellors mediators lawyers and judges involved in such disputes in Australia Drawing on this research the authors suggest ways in which children can better be heard without placing them at the centre of their parents conflicts They argue that the focus should not just be on how children are heard in legal proceedings but on how they can be better heard in those families who resolve their conflicts without going to court

**Fathers' Rights** James J. Gross,2004 You need to know your rights as a parent or face losing them p 4 of cover

**Children, Young Adults, and the Law** Lauren Krohn Arnest,1998-08 A dictionary of terms related to the legal rights of children and young adults

**The Constitutional Parent** Jeffrey Shulman,2014-07-01 In this bold and timely work law professor Jeffrey Shulman argues that the United States Constitution does not protect a fundamental right to parent Based on a rigorous reconsideration of the historical record Shulman challenges the notion held by academics and the general public alike that parental rights have a long standing legal pedigree What is deeply rooted in our legal tradition and social conscience Shulman demonstrates is the idea that the state entrusts parents with custody of the child and it does so only as long as parents meet their fiduciary duty to serve the developmental needs of the child Shulman s illuminating account of American legal history is of more than academic interest If once again we treat parenting as a delegated responsibility as a sacred trust not a sacred right we will not all reach the same legal prescriptions but we might be more willing to consider how time honored principles of family law can effectively accommodate the evolving interests of parent child and state
