Bill Gillham, James Thompson

Children Teenagers And Health The Key Data:

Children, Teenagers, and Health Caroline Woodroffe,1993 This book is an essential reference for anyone concerned with child health whether in the health and social services or the many areas of public policy which have an impact on health The presentation makes the data easily accessible to non specialists enabling wider informed public debate on how best to improve the health of children and teenagers in the UK *The Environment for Children* David Satterthwaite,etal,2014-04-23 Each year millions of children die of environmental causes and many more suffer serious illness or injury Children are often the most vulnerable to the condition of their environment and their health is an index of its quality but their wellbeing is rarely given priority by governments or aid agencies Ironically the problems can be traced back to matters which can be treated straightforwardly and at relatively low cost poor drinking water or food or infectious diseases which can be controlled This book gives a multidisciplinary account of the environmental health hazards threatening children and the range of impacts they can have It also explains what can be done by communities as well as governments and aid workers to provide safe and healthy environments for children The book looks at conditions in a range of cities in the developing world as well as pollutants and other health problems affecting children in the North Published in association with UNICEF and written by some of the same authors as *Environmental Problems in Third World Cities* Earthscan 1993 this provides excellent course material and will be useful for practitioners working on child development infant and maternal health environmental health and community development David Satterthwaite is Director of the Human Settlements Programme at the International Institute for Environment and Development and principal author of *Environmental Problems in Third World Cities* 1993 and *Squatter Citizen* 1989 **Child Public Health** Mitch Blair,2010-01-21 This text focuses on a public health approach to the health and sickness of children and young people comprising about a quarter of the population It explores the state of health of our children the historical roots of the specialty and the relation between early health and later adult health *Theory and Practice of Nursing* Lynn Basford,Oliver Slevin,2003 This is a comprehensive guide to the theory and practice of nursing addressing the nursing theory and skills specific to clients and patients needs Each chapter has learning outcomes study activities and reflection to prompt readers to learn as they read **Essential Research Findings in Child and Adolescent Counselling and Psychotherapy** Nick Midgley,Jacqueline Hayes,Mick Cooper,2017-02-13 What can child and adolescent counsellors and therapists learn from research What evidence is there for the effectiveness of different therapies and techniques How can developmental or neuroscience research inform or inspire therapeutic work with young people This book provides the answers to these questions and more Leading experts in the field take you through the latest research findings in child and adolescent therapy discussing how each is relevant to the work of practitioners Today both therapists and trainees need to be aware of and engage with research findings The book presents accessibly the current best knowledge and its implications for practice **Childhood** Phil Jones,Dorothy Moss,Pat Tomlinson,Sue Welch,2014-09-11

Childhood Services and Provision for Children provides an important and timely contribution to the field of Childhood and Youth Studies This cutting edge text brings together within a critical framework an understanding and discussion of a broad range of services ideas and themes and debates the impact of them on childrens lives The text takes a truly multi disciplinary perspective reflecting the wide ranging experience and backgrounds of the authors and contributors The wealth of real case study material and reflective activities within each chapter helps develop the evaluative tools and critical skills essential for an understanding of the complex social political and environmental issues surrounding childhood today and thus makes this an essential text for those studying in this field

Child Safety: Problem and Prevention from Pre-School to Adolescence Bill Gillham,James Thompson,2005-08-04 Child safety is everybody s concern but much professional activity is misinformed or based on a misrepresentation of the facts and preventative action is rarely adequately evaluated Written and edited by leading researchers with an active role in social policy this new book challenges both our understanding of the problem of child safety and points to the impotence of educational approaches based on knowledge enhancement The strong message is that improving children s knowledge has little or no effect on their behaviour From the physical abuse of young children to drug abuse in adolescence this book presents a radical new perspective on a key social issue

Progress in Community Child Health Nick Spencer,1998 The second volume in a series reviewing important developments of interest to paediatricians working in the community Topics covered include social paediatrics health promotion disability service management child protection public health adoption and fostering and audiology

Children, Medicine and the Law Michael D. A. Freeman,2005 This volume collects in convenient form the most influential articles analysing the key issues surrounding children medicine and the law today Issues examined include the implications of assisted reproduction for children neonatal intensive care health care HIV testing of new born children

Children at Risk? Helen Roberts,Susan Smith,Carol Bryce,1995 More years of productive life are lost to accidents than to heart disease and cancer combined More children and young people die from accidental injury than any other cause Little attention has been paid to the problem of child accidents or to the challenge of accident prevention Children at Risk fills this gap using survey data and detailed interviews with parents and guardians to explore the causes consequences and policy implications of child accidents in Britain Children at Risk focuses on key debates in accident research Are accidents caused by environmental hazards or by risky behaviour Should differences in risk be explained with reference to class or culture Should strategies for accident prevention be based on professional opinion or local knowledge By considering these questions the authors accumulate sufficient evidence to make a range of practical suggestions on how parents professionals and policymakers might best keep children safe Children at Risk combines a comprehensive literature review with rigorous empirical research It will be of great interest to students in social policy public health and medical sociology to health professionals and to other welfare practitioners and policymakers

Key Data on Adolescence 2009 John Christopher Coleman,Fiona Brooks,2009 The latest

edition of this essential publication busts myths and explains what is really happening for young people and families It covers families education and training physical health sexual health mental health crime and much more **On the State of the Public Health** ,1993 Young People and Social Change Andy Furlong,Fred Cartmel,1997 Recent social changes have had an enormous impact on the lives of young people The authors ask whether traditional parameters are still relevant and examine the extent to which risk and individualisation convey an accurate picture of young lives **On the State of the Public Health** Great Britain. Department of Health,1994 Youth in Society Jeremy Roche,Stanley Tucker,1997-02-18 This book brings together a series of readings to encourage critical reflection and thought about how young people s lives and priorities are changing and becoming more diverse Aimed at those involved in social work criminal justice education **BMJ** ,1997 *A Model for Action* Gerison Lansdown,1996 **Subject Guide to Books in Print** ,1997 **The Cumulative Book Index** ,1995 A world list of books in the English language **Population Trends** ,1975
