Childs Of Animals:

The Child's Book of Nature: Animals Worthington Hooker, 1874 **Animals of the World for Young People** Charles Robert Knight, 1908 **Animals and Their Children in Victorian Culture** Brenda Ayres, Sarah Elizabeth Maier, 2019-11-20 Whether a secularized morality biblical worldview or unstated set of mores the Victorian period can and always will be distinguished from those before and after for its pervasive sense of the proper way of thinking speaking doing and acting Animals in literature taught Victorian children how to behave If you are a postmodern posthumanist you might argue But the animals in literature did not write their own accounts Animal characters may be the creations of writers imagination but animals did and do exist in their own right as did and do humans The original essays in *Animals and Their Children in Victorian* explore the representation of animals in children s literature by resisting an anthropomorphized perception of them Instead of focusing on the domestication of animals this book analyzes how animals in literature civilize children teaching them how to get along with fellow creatures both human and nonhuman *Talking Animals in British Children's Fiction, 1786-1914* Tess Cosslett, 2017-03-02 In her reappraisal of canonical works such as *Black Beauty* *Beautiful Joe* *Wind in the Willows* and *Peter Rabbit* Tess Cosslett traces how nineteenth century debates about the human and animal intersected with or left their mark on the venerable genre of the animal story written for children Effortlessly applying a range of critical approaches from Bakhtinian ideas of the carnivalesque to feminist postcolonial and ecocritical theory she raises important questions about the construction of the child reader the qualifications of the implied author and the possibilities of children s literature compared with literature written for adults Perhaps most crucially Cosslett examines how the issues of animal speech and animal subjectivity were managed at a time when the possession of language and consciousness had become a vital sign of the difference between humans and animals Topics of great contemporary concern such as the relation of the human and the natural masculine and feminine child and adult are investigated within their nineteenth century contexts making this an important book for nineteenth century scholars children s literature specialists and historians of science and childhood *Writing about Animals in the Age of Revolution* Jane Spencer, 2020 Explores a broad canvas of canonical and non canonical writing during the late eighteenth and early nineteenth centuries to trace a connection between shifting attitudes to animals and the emergence of radical political claims based on universal rights
