China Review 1999:

China Review 1999 Chong Chor Lau, Xiao Geng, 1999 China has made great success in improving its foreign relations with other countries in 1998 Jiang Zemin's visit to the United States and Japan clearly showed that China would continually uphold its open door policy and economic reform. It is significant to most economic analysts that China has still recorded 7.8% economic growth under the Asian financial crisis. *China Review 1999* the ninth volume of this series is an expert survey of China's major sectors of interest which critically summarizes the development of the previous year in core chapters covering politics, the economy and social change. This volume has several in-depth presentations on political and social economic issues such as the Sino-US relations, Mainland-Taiwan relations, the economic performance of 1998, all major concerns to those interested in the development of the People's Republic. Additional studies describe rarely featured areas of Chinese society.

China Review 2000 Chung-Ming Lau, Jianfa Shen, 2000 The showing of sophisticated modern weapons during the fiftieth anniversary of the Chinese Communist Party heralded China's emergence as a great power in the arena of politics. At the same time China was finally admitted to the World Trade Organization after thirteen years negotiation. With its two-digit GNP annual growth rate, China seemed poised to become the second largest economy in the world. Many analysts argue that China will play an increasingly important role in the future, whether in politics or economics. *China Review 2000* features a review of overall changes in the political, economic, social and business environments during the past twenty years of reform, along with perspectives on major issues confronting the People's Republic in the new millennium. *Country Review* Robert C.

Kelly, Stanton Doyle, N. Denise Youngblood, 1999-08-01 The China Management Handbook F. Sieren, E. Boos, 2016-01-08 With China's accession to the WTO in Spring 2002, it is essential that Western investors and business people get an effective tool kit which enables them to succeed in the highly competitive Chinese market and to deal with the issues and changes that the WTO will bring. As a guide for Western investors, this book gives the answer to the 100 most crucial questions on operating or restructuring business in China. The question and answer format allows the reader to rapidly select information for a specific situation. *Country Review* Robert C. Kelly, Debra Ewing, Stanton Doyle, Denise Youngblood, 1998-07-01

The Management of Enterprises in the People's Republic of China Anne S. Tsui, Chung Ming Lau, 2012-12-06 *The Management of Enterprises in the People's Republic of China* aims to contribute to the knowledge base of management within the Chinese context. The book begins with a mapping of research on management in PRC and offers theoretical insights for cross-context institutional and behavioral studies. It then reports the results of fourteen empirical studies of management issues in PRC firms. The issues studied include SOE transformation, globalization, governance, employment, relationships, managerial networks, corporate culture and leadership. Also included are studies on the knowledge management process and management team characteristics of high technology firms. The methods of study include large-scale surveys, case studies and interviews. The contributors are international experts in Chinese management research. Finally, we offer
