Bureau of Foreign Commerce(1854-1903),1897 **China's Influence and American Interests** Larry Diamond,Orville Schell,2019-08-01 While Americans are generally aware of China s ambitions as a global economic and military superpower few understand just how deeply and assertively that country has already sought to influence American society As the authors of this volume write it is time for a wake up call In documenting the extent of Beijing s expanding influence operations inside the United States they aim to raise awareness of China s efforts to penetrate and sway a range of American institutions state and local governments academic institutions think tanks media and businesses And they highlight other aspects of the propagandistic discourse war waged by the Chinese government and Communist Party leaders that are less expected and more alarming such as their view of Chinese Americans as members of a worldwide Chinese diaspora that owes undefined allegiance to the so called Motherland Featuring ideas and policy proposals from leading China specialists China s Influence and American Interests argues that a successful future relationship requires a rebalancing toward greater transparency reciprocity and fairness Throughout the authors also strongly state the importance of avoiding casting aspersions on Chinese and on Chinese Americans who constitute a vital portion of American society But if the United States is to fare well in this increasingly adversarial relationship with China Americans must have a far better sense of that country s ambitions and methods than they do now *House documents* ,1897 *Britain in China* Robert Bickers,1999-09-11 Using

archival materials newly available in China and records in Britain and the US Robert Bickers paints a detailed portrait of the traders missionaries businessmen diplomats and settlers who constituted Britain in China Bickers argues that the British presence in China was dominated by urban settlers whose primary allegiance lay not with any grand imperial design but with their own communities and precarious livelihoods This brought them into growing conflict with the Chinese population and the British imperial government Bickers goes on to examine how the British state and its allies brought an end to the reign of freelance settler imperialism on the China coast At the same time other British sectors missionary and business renegotiated their own relationship with their Chinese markets and the Chinese state and distanced themselves from the settler British

The Future of UK-China Relations Kerry Brown,2019 The UK has had one of the longest and most multifaceted relationships with China of any western industrialized nation Stretching back over two hundred years this relationship is laden with meaning and is representative of the ways in which a modernizing China has tried to relate to a modernized country Britain s first sustained attempt to build ties with the Qing imperial court in the eighteenth century was focused primarily on trade Over the next 150 years Britain was at the forefront of some of the most infamous instances of Chinese encounters with the outside world from the Opium Wars the sacking of the Summer Palace and the reparations for the Boxer rebellion of 1900 to the maintenance of Hong Kong as a colony Since the return of Hong Kong to Chinese rule in 1997 policies of engagement have replaced those of confrontation and as China s economy has eclipsed that of the UK the transformation of that relationship has become imperative for the UK At a time when China s role in the world is becoming the focus of international business strategy and Brexit is pushing the UK to look to the rest of the world for trade and investment Kerry Brown assesses the potential for a new golden age of UK China relations and what the UK needs to understand about China before embarking on such a venture *Britain and the People's Republic of China, 1949-74* Robert Boardman,1976 **Treaties and Tariffs Regulating the Trade Between Great Britain and Foreign Nations** Sir Edward Hertslet,1877 Britain and China Evan Luard,2019-12-01 Originally published in 1962 This book is a study of relations between Britain and China The first section surveys historical relations between the two nations and culminates with the Second World War The second part examines British policy during the Chinese Civil War the Korean War and the Geneva Conference The third part discusses what contemporary issues in British Chinese relations were at the time the book was written *British and Foreign State Papers* Great Britain.
