China S Rural Entrepreneurs:

China's Rural Entrepreneurs John Wong, Rong Ma, Mu Yang, Dr. Mu Yang, 1995 Contains 12 essays which describe case studies of ten industries in two counties of eastern Shandong and southern Jiangsu

A Chinese Economic Revolution Linda Grove, 2006-10-12 This powerful and meticulously researched study explores the role of rural industry and entrepreneurship in the Chinese economic miracle Linda Grove considers especially the development of the Gaoyang industrial district China's best known rural industrial district of the pre World War II period By focusing on one weaving district in North China she is able to explore in detail the ways in which small industrial firms have accumulated capital organized their firms developed nationwide marketing networks and promoted brands over the last century Cutting across the conventional divide between studies of history and contemporary economy and between pre and post 1949 China the author persuasively shows the links between traditional Chinese business practices and contemporary entrepreneurial success The first book in English to explore the world of small scale business firms in China it introduces the activities of individual entrepreneurs and firms and examines the structure of industrial organization that has supported the rapid growth of individual firms Based on several decades of archival research surveys and fieldwork *A Chinese Economic Revolution* provides an in depth exploration of Chinese rural industry Framed by the author's extensive familiarity with rural industrial development in Japan India and Europe the book also offers important comparative perspectives for those interested in global economic history postsocialist economic performance and economic development strategies

Doing Business in Rural China Thomas Heberer, 2012-09-01 Open access edition DOI 10.6069/9780295804095 Longlisted for the 2009 ICAS Book Award Mountainous Liangshan Prefecture on the southern border of Sichuan Province is one of China's most remote regions Although Liangshan's majority ethnic group the Nuosu now classified by the Chinese government as part of the Yi ethnic group practiced a subsistence economy and were by Chinese standards extremely poor Their traditional society was stratified into endogamous castes the most powerful of which owned slaves With the incorporation of Liangshan into China's new socialist society in the mid twentieth century the Nuosu were required to abolish slavery and what the Chinese government considered to be superstitious religious practices When Han Chinese moved into the area competing with Nuosu for limited resources and introducing new cultural and economic challenges some Nuosu took advantage of China's new economic policies in the 1980s to begin private businesses In *Doing Business in Rural China* Thomas Heberer tells the stories of individual entrepreneurs and presents a wealth of economic data gleaned from extensive fieldwork in Liangshan He documents and analyzes the phenomenal growth during the last two decades of Nuosu run businesses comparing these with Han run businesses and asking how ethnicity affects the new market oriented economic structure and how economics in turn affects Nuosu culture and society He finds that Nuosu entrepreneurs have effected significant change in local economic structures and social institutions and have financed major social and economic development projects This economic

development has prompted Nuosu entrepreneurs to establish business political and social relationships beyond the traditional social confines of the clan while also fostering awareness and celebration of ethnicity

Financing China's Rural Enterprises Dr Jun Li, Jun Li, 2003-08-29 Rural enterprises have played an important role in the extraordinary success of China's economy over the last two decades. They have greatly increased off-farm employment in rural areas and brought substantially increased incomes and standards of living to many rural people. Jun Li provides a comprehensive analysis of the financing of China's rural enterprises over the reform period and discusses the key aspects of rural enterprise development in China, including the growth of rural enterprises and enterprise-level behaviour, the role of state policy, rural financial institutions, and local government. Brings new and challenging analysis to the current debate on the Chinese financial system and the financing of SMEs.

China's Age of Abundance Feng Wang, 2024-04-04 Between the 1980s and the present day, China has experienced one of the most consequential economic transformations in world history. One-fifth of the Earth's population has left behind a life of scarcity and subsistence for one of abundance and material comfort, while their nation has emerged as a preeminent economic and political power. In a systematic historical and sociological analysis of this unique juncture, Wang Feng charts the origins, forces, and consequences of this meteoric rise in living standards. He shifts the focus away from institutions and policies to offer new perspectives based on consumption among poorer rural populations as a driver of global economic change. But is this Age of Abundance coming to an end? Anticipating potential headwinds, including an aging population, increasing inequality, and intensifying political control, Wang explores whether this preeminence could be coming to a close.

Entrepreneurship in China Keming Yang, 2016-04-29 The emergence of China as a major world economy is of great importance to the global political economy and to international business. There has been much research on the macro level of institutional reform, but little detailed work on the grassroots level of entrepreneurship in China. This innovative book addresses this gap by investigating how an economic system dominated by central plans, communist ideologies, and suppressing bureaucracies could generate such energy from the bottom of society, fuelling the country's economic growth. Keming Yang's theory of entrepreneurship is based on two interrelated concepts: double entrepreneurship and institutional holes. He argues that the two concepts bridge a gap between the neo-classical institutionalism of economic development and entrepreneurship studies that emphasize individual choice. The rigorous theoretical framework is supported by substantial empirical research, offering statistical analyses of survey data as well as detailed case studies. This timely book will appeal to an interdisciplinary readership in sociology, economics, business studies, and Chinese and Asian Studies.

Handbook of Asian Management Kwok Leung, Steven White, 2007-05-08 Our understanding of management in Asia has not kept pace with the demands of managers and students. The Handbook of Asian Management provides in-depth critical reviews of central topics in strategy and organizational behavior research in Asian contexts. Leading scholars take stock of what has been learned and give clear directions towards greater rigor and relevance for research in this region.

China's

Great Economic Transformation Loren Brandt, Thomas G. Rawski, 2008-04-14 This landmark study provides an integrated analysis of China's unexpected economic boom of the past three decades. The authors combine deep China expertise with broad disciplinary knowledge to explain China's remarkable combination of high speed growth and deeply flawed institutions. Their work exposes the mechanisms underpinning the origin and expansion of China's great boom. Penetrating studies track the rise of Chinese capabilities in manufacturing and in research and development. The editors probe both achievements and weaknesses across many sectors including China's fiscal, legal, and financial institutions. The book shows how an intricate minuet combining China's political system with sectorial development, globalization, resource transfers across geographic and economic space, and partial system reform delivered an astonishing and unprecedented growth spurt.

A Study of Public Policy Influences Upon the Development of China's Rural Enterprises, 1978-1992 Zhonghui Wang, 1997 Much research has tended to neglect the study of the impact of public policy on the development of rural enterprises. However, public policy has been extremely important in China since it has determined not only the extent to which rural enterprises have been developed but also whether rural enterprises should be allowed to be developed at all. Therefore, an analysis of changes of public policy since 1978 must be a crucial component of any analysis of the development of rural enterprises.

Double Entrepreneurship in China's Economic Reform Keming Yang, 2000

Private Enterprises in Rural China Ole Odgaard,1992 Analyzes how private enterprises have gradually gained momentum and are now a cornerstone in China s rural transformation The text also presents field study results on how these household based enterprises affect local community development *From Peasant to Entrepreneur* Eduard B. Vermeer,1992

Chinese Entrepreneurs in the Economic Development of China Rashid Malik,1997-11-20 The entrepreneurs of China are contributing positively to economic development but unlike Western entrepreneurs are uncertain about their position and government policies This text examines how the Chinese Communist Party is making room for entrepreneurs and consumers in the economic arena

China's Agriculture in the International Trading System Organisation for Economic Co-operation and Development,2001 Chinese decision makers are grappling with policy choices that will optimise the gains from China s integration into the international trading system in harmony with social regional and sustainable development goals [Business Opportunities in Northeastern China](#) John J. Williams,1999 This volume contains business reports originating from the Business Study Mission to northeastern China in December 1997 Over a 15 day period 48 participants explored the climate for business opportunities in Beijing Hebei and Liaoning provinces *Cooperative and Collective in China's Rural Development* Eduard B. Vermeer, Frank N. Pieke, Woei Lien Chong,1998 The first book available devoted exclusively to China s rural organizational change and the subsequent implications for rural societies and politics Following China s successful decollectivization diverse new organizational forms arose in response to different local situations Yet the collective tradition did not die The contributors dissect the closely structured relationships among the newly emerging class of rural entrepreneurs local officials and their family members and associates

Government and Market in China Jian Zhang,2004 This book examines the key role played by local governments in China s market oriented economic reform process since 1978 In particular it addresses the much debated questions of why Communist Party officials at the local level embraced market reform despite its potentially detrimental effects on their power and how the choices they made have shaped institutional changes and the pattern of development in the economies under their jurisdiction In contrast to most recent studies of local governments in China which have tended to explain local state activism in terms of the economic interests of local government officials this book highlights the role that political interests have played in shaping economic behaviour The contention is that the active involvement of local governments in the economy has been motivated not only by a desire to seek economic benefits but also and more importantly by political considerations The political perspective emphasised in this book leads to a reassessment of the nature and effect of the role of local government in the economic growth and institutional changes in China s transitional

economy Tracing the behaviour of local government to its political origin the book not only explains more fully the motivational sources of economic activism at the local level but also demonstrates the contradictory ways in which local governments intervene in the economy the internal weakness of the local state led development and how problems caused by politically motivated economic intervention catalysed the privatisation of the local government run economic sector during mid 1990s **The Chinese Economy, 1978-1994** ,1995 **Asian Economic Journal** ,1996
