Chinas Grain Production And Trade An Economic Analysis:

China's Grain Production And Trade Colin A. Carter, 2019-04-10 China with over 20 percent of the earth's population is both the world's largest producer and largest consumer of cereal grains. As a consequence, the supply and demand of grain in China will have a major impact on the world food trade. In this comprehensive study of China's grain production and trade, Colin A. Carter and Fu Ning Zhong trace the **China's Economic Dilemmas in the 1990s**, 1991 *China's Economic Dilemmas in the 1990s* United States. Congress. Joint Economic Committee, 1992 *Costs and Benefits of Interdependence: A Net Assessment* **Journal of Economic Literature**, 2004 **Development and Application of an Economic Model for Agricultural Policy Simulation in China** Guanghua Lin, 2006 Hearings, Reports and Prints of the Joint Economic Committee United States. Congress. Joint Economic Committee, 1978 **Agricultural Trade and Policy in China** Scott D. Rozelle, 2017-12-04 This title was first published in 2003. This prominent and commanding volume collates the best research available on China's agricultural trade. Critically analyzing the agricultural supply and demand factors that underlie trade patterns such as agricultural productivity and policy, it also explores China's agricultural trade and policy, including implications for China and elsewhere. Long-term issues and productivity growth are taken into consideration, as are specific issues such as WTO accession. The slate of authors combines the leading established scholars in the field and the best of the next generation, including those from China and the West.
