Artists Oxford:

The Oxford Companion to Twentieth-century Art Harold Osborne, 1981 Contains entries on artists ideas movements and trends of painting sculpture and the graphic arts in this century up to the mid 1970s *The Oxford Dictionary of American Art and Artists* Ann Lee Morgan, 2007-07-18 With the advent of abstract expressionism in the 1940s America became the white hot center of the artistic universe Now in *The Oxford Dictionary of American Art and Artists* the first such volume to appear in three decades Ann Lee Morgan offers an informative insightful and long overdue resource on our nation's artistic heritage Featuring 945 alphabetically arranged entries here is an indispensable biographical and critical guide to American art from colonial times to contemporary postmodernism Readers will find a wealth of factual detail and insightful analysis of the leading American painters ranging from John Singleton Copley Thomas Cole and Mary Cassatt to such modern masters as Jackson Pollack Romare Bearden and Andy Warhol Morgan offers razor sharp entries on sculptors ranging from Alexander Calder to Louise Nevelson on photographers such as Berenice Abbott Man Ray Walker Evans and Ansel Adams and on contemporary installation artists including video master Bill Viola In addition the dictionary provides entries on important individuals connected to the art scene including collectors such as Peggy Guggenheim and critics such as Clement Greenberg Morgan also examines notable American institutions organizations schools techniques styles and movements The range of coverage is indeed impressive but equally important is the quality of analysis that appears in entry after entry Morgan gives readers a wealth of trustworthy and authoritative information as well as perceptive well informed criticism of artists and their work In addition the book is thoroughly cross referenced so readers can easily find additional information on any topic of interest Beautifully written filled with fascinating historical background and penetrating insight *The Oxford Dictionary of American Art and Artists* is an essential one volume resource for art lovers everywhere The Oxford History of Western Art Martin Kemp, 2000 *The Oxford History of Western Art* is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these

visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the re definition of traditional period boundaries Rather than relying on conventional labels such as Medieval Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art history itself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors working under the direction of Professor Martin Kemp one of the UK's most distinguished art historians Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number of unifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints The result is a vibrant vigorous and revolutionary account of Western art serving both as an inspirational introduction for the general reader and an authoritative source of reference and guidance for students
