Kaye, 2022-09-30 The British Marxist Historians remains the first and most complete study of the founders of one of the most influential contemporary academic traditions in history and social theory In this classic text Kaye looks at Maurice Dobb and the debate on the transition to capitalism Rodney Hilton on feudalism and the English peasantry Christopher Hill on the English Revolution Eric Hobsbawm on workers peasants and world history and E P Thompson on the making of the English working class Kaye compares their perspective on history with other approaches such as that of the French Annales school and concludes with a discussion of the British Marxist historians contribution to the formation of a democratic historical consciousness The British Marxist Historians is an indispensable book for anyone interested in the intellectual history of the late twentieth century *Studies in Sacred Theology*, 1927 **British Sociology's Lost Biological Roots** Chris Renwick, 2012-01-25 A new and innovative account of British sociology's intellectual origins that uses previously unknown archival resources to show how the field's forgotten roots in a late nineteenth and early twentieth century debate about biology can help us understand both its subsequent development and future potential **American Mass Incarceration and Post-Network Quality Television** Lee Flamand, 2025-10-01 Far more than a building of brick and mortar the prison relies upon gruesome stories circulated as commercial media to legitimize its institutional reproduction Perhaps no medium has done more in recent years to both produce and intervene in such stories than television This unapologetically interdisciplinary work presents a series of investigations into some of the most influential and innovative treatments of American mass incarceration to hit our screens in recent decades Looking beyond celebratory accolades Lee A Flamand argues that we cannot understand the eagerness of influential programs such as OZ The Wire Orange Is the New Black 13th and Queen Sugar to integrate the sensibilities of prison ethnography urban sociology identity politics activism and even Black feminist theory into their narrative structures without understanding how such critical postures relate to the cultural

aspirations and commercial goals of a quickly evolving TV industry and the most deeply ingrained continuities of American storytelling practices

Essays on Ethics and Method Henry Sidgwick, 2000-12-21

Essays on Ethics and Method is a selection of the shorter writings of the great nineteenth century moral philosopher Henry Sidgwick

Sidgwick's monumental work *The Methods of Ethics* is a classic of philosophy this new volume is a fascinating complement to it

These essays develop further Sidgwick's ethical ideas respond to criticism of the *Methods* and discuss rival theories

Other aspects of Sidgwick's thought are also illuminated in particular his interests in method verification and proof

The essays show Sidgwick to be a forerunner of twentieth century analytical philosophy they illustrate his emphasis on common sense and ordinary language and exemplify not only his care clarity and precision but also the wit and humour that are not prominent in his longer works

Marcus Singer provides a substantial editorial introduction to Sidgwick and his intellectual context

The volume will be a rich resource for anyone interested in moral philosophy or the development of modern analytical philosophy
