their lineage to tribal cultures that were organized around the idea that women's virginity represents the honor of male relatives and the good of the community at large. Anyone or anything that influences women to the contrary is considered a corrupting and potentially calamitous force. Jacobson analyzes the connection between tribal patriarchy and Muslim radicalism through an innovative tool, the tribal patriarchy index. This index helps to illuminate why women's sexuality, dress, and image so compel militant Muslim outrage and sometimes violent action, revealing a deeper human story of how women's status defines competing moral visions of society and why this present clash is erupting with such ferocity.
