The Cambridge Handbook of Applied School Psychology Frank C. Worrell, Tammy L. Hughes, Dante D. Dixon, 2020-09-17 Practice books are often simple how to lists or straightforward recipes and the practitioner still does not know why the activity is related to the outcome they seek In essence they lose how the specifics of the practice are related to the theory of change or the theory of how the problem developed in the first place This leads to practitioners potentially removing crucial elements of best practice procedures when making modifications to tackle new or different problems in an unfamiliar context By understanding the theoretical underpinnings practitioners can better plan for adjustments because they know how the outcomes they seek are informed by the theory Engagingly written and perfect for day to day use this book translates state of the art research and interdisciplinary theory into practical recommendations for those working with children and adolescents

Massive Resistance and Southern Womanhood Rebecca Brückmann, 2021-01-01 Massive Resistance and Southern Womanhood offers a comparative sociocultural and spatial history of white supremacist women who were active in segregationist grassroots activism in Little Rock New Orleans and Charleston from the late 1940s to the late 1960s Through her examination Rebecca Brückmann uncovers and evaluates the roles actions self understandings and media representations of segregationist women in massive resistance in urban and metropolitan settings Brückmann argues that white women were motivated by an everyday culture of white supremacy and they created performative spaces for their segregationist agitation in the public sphere to legitimize their actions While other studies of mass resistance have focused on maternalism Brückmann shows that women's invocation of motherhood was varied and primarily served as a tactical tool to continuously expand these women's spaces Through this examination she differentiates the circumstances tactics and representations used in the creation of performative spaces by working class middle class and elite women engaged in massive resistance Brückmann focuses on the transgressive street politics of working class female activists in Little Rock and New Orleans that contrasted with the more traditional political actions of segregationist middle class and elite women in Charleston who aligned white supremacist agitation with long standing experience in conservative women's clubs including the United Daughters of the Confederacy and the Daughters of the American Revolution Working class women's groups chose consciously transgressive strategies including violence to elicit shock value and create states of emergency to further legitimize their actions and push for white supremacy
