Brief on Children with Learning Disabilities Vancouver Association for Children with Learning Disabilities, 1971 **The ABCs of Learning Disabilities** Bernice Wong, Lorraine Graham, Maureen Hoskyn, Jeanette Berman, 2011-10-13 The ABCs of Learning Disabilities, Second Edition discusses major research findings on learning disabilities in children, adolescents and adults in language, memory, social skills, self-regulation, reading, mathematics and writing, with an additional chapter on assessment. This concise primer is intended for use as an undergraduate introductory text to the field. Written with an evenness of tone, breadth and depth, it conveys an engaging style meant to encourage the beginning student to identify the big picture and to be interested in conceptual issues as well as research findings. Undergraduate level text, 90% new material. Concise introduction to the field. Covers current concepts like removing the IQ performance discrepancy formula in diagnosing learning disabilities. New chapter on self-regulation and learning disabilities. Whole school approach to social skills intervention. *Multidisciplinary Assessment of Children with Learning Disabilities and Mental Retardation* David L.

Wodrich, James E. Joy, 1986 Learning Disabilities Carolyn S. Ryan, 2017-11-29 Learning disabilities are conditions that are associated with difficulties in knowledge and skill acquisition to the level expected of same age peers. The current book is an international examination of assessment methods, preventative measures, intervention and research with those individuals with learning disabilities, obtained from authors in the United States of America, Europe, Asia and Africa. **Learning About Learning Disabilities** Bernice Wong, Deborah L. Butler, 2012-11-27 Learning About Learning Disabilities, 4e continues to provide equal attention to the intellectual, conceptual and practical aspects of learning disabilities. The Fourth Edition of this popular title presents 80% new material, keeping the chapters up to date in this fast-moving field. With new contributors and 11 new chapters, coverage is both comprehensive and thorough, encompassing the classification and identification of learning disabilities, learning disabilities in reading, writing, math and social studies, interventions and the issues germane to different age ranges of the learning disabled children, adolescents and adults. Readers will find Learning About Learning Disabilities, Fourth Edition suitable for use as a reference source for researchers or as a graduate level text. Reviews of previous editions: This text provides a balanced focus on both the conceptual and practical aspects of learning disabilities. Its research coverage is more comprehensive and of greater depth than any other LD textbook, and it is distinctive in its treatment of such important areas as consultation skills and service delivery. CHILD ASSESSMENT NEWS provides a broad overview of some

important issues in relation to the education and development of pupils with learning disabilities Wong has succeeded in providing detailed descriptions and comments within a book which covers a broad range of topics Without exception the chapters are clearly written and accessible and many provide the reader with challenging ideas and practical suggestions  
BRITISH JOURNAL OF SPECIAL EDUCATION Learning Disabilities occur in 20% of the population Three million children in the US have a learning disability and receive special education in school 30% of children with learning disabilities drop out of high school and 48% of those with learning disabilities are out of the workforce or unemployed Discusses different types of learning disabilities including problems with attention memory language math reading and writing Encompasses the impact of LD on learning as well as social competence and self regulation Provides research summaries on most effective ways to teach children with LD Encompasses a lifespan perspective on LD discussing the impact on children adolescents and adults
