Steve Korté, Who HQ, 2023-11-07 Learn about the deadly and unexpected blizzard that slammed the Midwestern United States in 1888 and doomed many young lives in this addition to the New York Times Bestselling What Was series On January 12 1888 a surprise blizzard broke out in the middle of the day across the Midwest In its path hundreds of children and teachers found themselves stranded inside schoolhouses with no food no heat and very few options Days passed and over 235 people died as result of the harsh snow of the Schoolhouse Blizzard but many were able to survive thanks to the bravery of others in their communities Learn all about the disastrous weather conditions and the people who were affected by it in this book for young readers **I Survived the Children's Blizzard, 1888 (I Survived #16)** Lauren Tarshis, 2018-02-27 Bestselling author Lauren Tarshis tackles the Children s Blizzard of 1888 in this latest installment of the groundbreaking New York Times bestselling I Survived series Eleven year old John Hale has already survived one brutal Dakota winter and now he s about to experience one of the deadliest blizzards in American history The storm of 1888 was a monster a frozen hurricane that slammed into America s midwest without warning Within hours America s prairie would be buried under ten feet of snow Hundreds would be dead thousands terrified and lost and freezing John never wanted to move to the wide open prairie He s a city kid not a tough pioneer But his inner strength is seriously tested when he finds himself trapped in the blinding snow the wind like a giant crushing hammer pounding him over and over again Will John ever find his way home **The Children's Blizzard of 1888** Nel Yomtov, 2016-11-01 On January 12 1888 a sudden blizzard barreled across Iowa Minnesota Nebraska and the Dakota Territory Blinding snow and howling wind took rural towns by surprise Many children were stranded in one room schoolhouses Far from their homes on the Midwestern prairie would the people caught in the storm survive To understand the impact of a disaster you must understand its causes How did warm weather earlier in the day give people a false sense of safety How did the lack of an accurate forecast contribute to the severity of the disaster Investigate the disaster from a cause and effect perspective and find out *The Children's Blizzard* Melanie Benjamin, 2022-01-11 From the New York Times bestselling author of *The Aviator's Wife* comes a story of courage on the prairie inspired by the devastating storm that struck the Great Plains in 1888 threatening the lives of hundreds of immigrant homesteaders especially schoolchildren A nail biter poignant powerful perfect Kate Quinn author of *The Alice Network* The morning of January 12 1888 was unusually mild following a punishing cold spell It was warm enough for the homesteaders of the Dakota Territory to venture out again and for their children to return to school without their heavy coats leaving them unprepared when disaster struck At the hour when most prairie schools were letting out for the day a terrifying fast moving blizzard blew in without warning Schoolteachers as young as sixteen were suddenly faced with life and death decisions Keep the children inside to risk freezing to death when fuel ran out or send them home praying they wouldn t get lost in the storm Based on actual oral histories of survivors this gripping novel follows the stories of Raina and

Gerda Olsen two sisters both schoolteachers one becomes a hero of the storm and the other finds herself ostracized in the aftermath It is also the story of Anette Pedersen a servant girl whose miraculous survival serves as a turning point in her life and touches the heart of Gavin Woodson a newspaperman seeking redemption It was Woodson and others like him who wrote the embellished news stories that lured northern European immigrants across the sea to settle a pitiless land Boosters needed them to settle territories into states and they didn't care what lies they told these families to get them there or whose land it originally was At its heart this is a story of courage of children forced to grow up too soon tied to the land because of their parents' choices It is a story of love taking root in the hard prairie ground and of families being torn asunder by a ferocious storm that is little remembered today because so many of its victims were immigrants to this country

The Children's Blizzard David Laskin, 2004 The gripping story of an epic prairie snowstorm that killed hundreds of newly arrived settlers and cast a shadow on the promise of the American frontier January 12 1888 began as an unseasonably warm morning across Nebraska the Dakotas and Minnesota the weather so mild that children walked to school without coats and gloves But that afternoon without warning the atmosphere suddenly violently changed One moment the air was calm the next the sky exploded in a raging chaos of horizontal snow and hurricane force winds Temperatures plunged as an unprecedented cold front ripped through the center of the continent By Friday morning January 13 some five hundred people lay dead on the drifted prairie many of them children who had perished on their way home from country schools In a few terrifying hours the hopes of the pioneers had been blasted by the bitter realities of their harsh environment Recent immigrants from Germany Norway Denmark and the Ukraine learned that their free homestead was not a paradise but a hard unforgiving place governed by natural forces they neither understood nor controlled With the storm as its dramatic heartbreaking focal point *The Children's Blizzard* captures this pivotal moment in American history by tracing the stories of five families who were forever changed that day Drawing on family interviews and memoirs as well as hundreds of contemporary accounts David Laskin creates an intimate picture of the men women and children who made choices they would regret as long as they lived Here too is a meticulous account of the evolution of the storm and the vain struggle of government forecasters to track its progress The blizzard of January 12 1888 is still remembered on the prairie Children fled that day while their teachers screamed into the relentless roar Husbands staggered into the blinding wind in search of wives Fathers collapsed while trying to drag their children to safety In telling the story of this meteorological catastrophe the deadliest blizzard ever to hit the prairie states David Laskin has produced a masterful portrait of a tragic crucible in the settlement of the American heartland

I Survived the Children's Blizzard, 1888 Lauren Tarshis, 2018 *The Schoolhouse Blizzard* also known as the Children's Blizzard or the Great Blizzard of 1888 caught people completely by surprise and resulted in 235 fatalities including several children in one room schoolhouses Tarshis places a resilient 11 year old character in the midst of this deadly blizzard fighting their way out
