## China Image:

**In China's Image** R. Hodder, 2000-08-09 This book questions our perceptions of China It is argued that what is commonly understood to be China is in large part a collage of images These images created and manipulated by individuals and groups within the boundaries of the Chinese state in order to pursue their own social economic and political ambitions have been accepted elaborated upon strengthened and made legitimate by European and American social scientists and by other professional commentators on China If shaped or strongly conditioned by these images policies towards China are likely to prove either inappropriate or dangerous "Harmonious World" and China's New Foreign Policy Sujian Guo, Jean-Marc F. Blanchard, 2010-01-01 The concept of harmonious world has become the basis for the new principles and goals of Chinese foreign policy under the fourth generation leadership The question remains however about the exact meanings of these principles and slogans and their implications for Chinese foreign policy This is the first edited volume that attempts to address this significant question and its insightful contributions elucidates new dimensions of Chinese foreign policy and their implications for China's relations with the world **China's Ethnic Groups**, 2007 **The Religious System of China: book II.
