Chinas Imperial Way:

China's Imperial Way Kevin Bishop,1997 This book traces China s Imperial Way over a distance of 3 500 kilometres

Handbook of Confucianism in Modern Japan Shaun O'Dwyer,2025-10-01 In mainstream assessments of Confucianism s modern genealogy there is a Sinocentric bias which is in part the result of a general neglect of modern Japanese Confucianism by political and moral philosophers and intellectual historians during the post war era This collection of essays joins a small group of other studies bringing modern Japanese Confucianism to international scholarly notice largely covering the time period between the Bakumatsu era of the mid 19th century and the 21st century The essays in this volume can be read for the insight they provide into the intellectual and ideological proclivities of reformers educators and philosophers explicitly reconstructing Confucian thought or more tacitly influenced by it during critical phases in Japan s modernization imperialist expansionism and post 1945 reconstitution as a liberal democratic polity They can be read as introductions to the ideas of modern Japanese Confucian thinkers and reformers whose work is little known outside Japan and sometimes barely remembered inside Japan They can also be read as a needful corrective to the above mentioned Sinocentric bias in the 20th century intellectual history of Confucianism For those Confucian scholars currently exploring how Confucianism is or can be made compatible with democracy at least some of the studies in this volume serve as a warning They enjoin readers to consider how Confucianism was also rendered compatible with the authoritarian ultranationalism and militarism that captured Japan s political system in the 1930s and brought war to the Asia Pacific region

China's Old Churches Alan Richard Sweeten,2019-12-16 China s Old Churches by Alan Sweeten surveys the history of Catholicism in China 1600 to the present as reflected by the location style and details of sacred structures in three crucial areas of north China Closely examined are the most famous and important churches in the urban settings of Beijing and Tianjin as well as lesser known ones in rural Hebei Province Missionaries built Western looking churches to make a broad religious statement important to themselves and Chinese worshippers Non Catholics however tended to see churches as sociopolitically foreign and culturally invasive The physical visual impact of church buildings is significant Today restored old churches and new sacred structures are still mostly of Western style but often include a sacred grotto dedicated to Our Lady of China a growing number of Catholics supporting Marian centered activities

Confucianism at War Shaun O'Dwyer,2024-12-16 This is the first book length study of wartime Confucianism in any language providing new insights into key developments in Confucian thought and ideology in East Asia in the 1930s and 1940s In standard scholarship on the ideologies driving nation building and imperialism during the era of Japanese expansionism that began in 1931 Confucianism is rarely referenced and relegated to the background This volume brings together the work of scholars who argue for a revision of this standard view It includes studies of Japanese Chinese colonial Manchurian and Korean intellectuals and reformers who contributed to expansionist collaborationist or nationalist ideology building during the war Contrary to the assumption that Confucianism was an

anachronism rendered irrelevant by the Westernizing political reforms and revolutions of the early twentieth century the chapters in this book show that Confucianism remained a potent and also contested cultural resource for promoting national cohesion war mobilization and expansionism in East Asia between the Japanese invasion of Manchuria in 1931 and the end of World War II in 1945 This book will appeal to scholars and students of Asian studies nationalism studies postcolonial studies religious studies and philosophy In particular it is essential reading for those interested in nationalism and modern Confucian thought in East Asia *Chinese Imperial City Planning* Nancy Shatzman Steinhardt,1990 **Chang'an Avenue and the**

Modernization of Chinese Architecture Shuishan Yu,2013-05-15 In this interdisciplinary narrative the never ending completion of China s most important street offers a broad view of the relationship between art and ideology in modern China Chang an Avenue named after China s ancient capital whose name means Eternal Peace is supremely symbolic Running east west through the centuries old heart of Beijing it intersects the powerful north south axis that links the traditional centers of political and spiritual legitimacy the imperial Forbidden City and the Temple of Heaven Among its best known features are Tiananmen Square and the Great Hall of the People as well as numerous other monuments and prominent political cultural financial and travel related institutions Drawing on Chang an Avenue s historic ties and modern transformations this study explores the deep structure of the Chinese modernization project providing both a big picture of Beijing s urban texture alteration and details in the design process of individual buildings Political winds shift architectural styles change and technological innovations influence waves of demolition and reconstruction in this analysis of Chang an Avenue s metamorphosis During collective design processes architects urban planners and politicians argue about form function and theory and about Chinese vs Western and traditional vs modern style Every decision is fraught with political significance from the 1950s debate over whether Tiananmen Square should be open or partially closed to the 1970s discussion of the proper location scale and design of the Mao Memorial Mausoleum to the more recent controversy over whether the egg shaped National Theater designed by the French architect Paul Andreu is an affront to Chinese national pride Art History Publication Initiative For more information visit <http://arthistorypi.org/books/chang-an> **Journal of the**
