

An aerial photograph of a rural landscape in China. A multi-lane highway runs diagonally across the frame, with several cars visible. The surrounding area is a patchwork of green and yellow fields, likely agricultural. In the background, a city skyline is visible under a clear blue sky. The text is overlaid on the left side of the image.

Chinas Rural Industry

Jon Sigurdson

Chinas Rural Industry:

China's Rural Industry World Bank,1990 This book provides a comprehensive multi faceted analysis of China s booming rural nonstate collective and private industrial sector Based on a collaboration between Chinese and World Bank researchers the 19 papers compiled here offer detailed national and provincial information from four representative counties 63 townships 122 rural industrial firms and 1 174 workers and address such topics as performance and efficiency ownership and institutional structure employment and wage systems regional structure and related aspects of China s rural industrial sector This study breaks new ground in the scholarly analysis of an increasingly important highly dynamic part of China s economy

China's Rural Industry William A. The Institutional Root of China's Rural Industry and Gradual Reform Xiaolin Pei,1998 *A Multidimensional Study of China's Rural Industry* Mingyue Zhang, 1st,Xiaolong Zhou, 2nd,2024-11-10 **Accelerating China's Rural Transformation** Albert Nyberg,Scott Rozelle,1999-01-01 QUOTE two issues remain central to the Chinese government s rural development objectives food security and poverty alleviation China has made remarkable progress in meeting these goals the economy including the rural sector has grown at phenomenal rates during the reform period QUOTEWhile China s rural products input labor and land markets are improving they remain nascent China still needs to foster several critical institutions such as an effective fiscal system a more efficient rural financial system a workable land tenure arrangement and a revamped trade and investment environment for agriculture The primary purpose of this report is to identify and consolidate information on these crucial issues that impact on rural development in China This report assesses strategic options from the perspective of efficiency equitable development and growth It is intended to assist government officials and World Bank staff to prioritize policy and institutional reforms and public investment decisions in the rural sector The Industrialization of Rural China Chris Bramall,2006-12-21 The growth of rural industry in China since 1978 has been explosive Much of the existing literature explains its growth in terms of changes in economic policy By means of a combination of privatization liberalization and fiscal decentralization it is argued rural industrialization has taken off This book takes issue with such claims Using a newly constructed dataset covering all of China s 2000 plus counties and complemented by a detailed econometric study of county level industrialization in the provinces of Sichuan Guangdong and Jiangsu the author demonstrates that history mattered More precisely it is argued that the development of rural industry in the Maoist period set in motion a process of learning by doing whereby China s rural workforce gradually acquired an array of skills and competencies As a result rural industrialization was accelerating well before the 1978 climacteric The growth of the 1980s and 1990s is therefore likely to be a continuation of this process Without prior Maoist development of skills the

growth of the post 1978 era would have been much slower and perhaps would not have occurred at all as has been the case in countries such as India and Vietnam This is not to say that the Maoist legacy was without flaw Many of the rural industries created under Mao were geared towards meeting defence related objectives resulting in inefficiencies and there can be no question that post 1978 policy changes facilitated the growth process But without the Maoist inheritance rural

industrialization across China would have been unsuccessful **Development of China's Rural Industry and**

S. Cheng,2006-08-03 This book is a comprehensive and positive study of the special pattern of China s industrialization and economic development covering all of the relevant main policies more than one hundred from 1949 to the twenty first

century Industrialization and China's Rural Modernization Dong Fureng,2016-07-27 This book analyses China s historical experience of industrialization It adopts a critical stance towards China s development strategy and proposes an alternative approach outlining its main features Due to the great importance and special problems of China s rural modernization special attention is devoted to analysis of the rural sector Many of China s rural socio economic problems are similar to those encountered in other developing countries It is intended that the book will increase understanding of China s socio economic development as well as contributing to wider debates in the theory of economic development *Rural Industrialization in*

China Jon Sigurdson,2020-03-17 Small scale industries in rural areas in China are today an essential element of regional development programs This monograph analyzes two main development strategies One involves technology choices in a number of industrial sectors most of which were initiated during the Great Leap Forward in the late fifties The scaling down of modern large scale technology through a product or quality choice combined with changes in the manufacturing processes is discussed at some length for nitrogen chemical fertilizer and cement The other approach is the integrated rural development strategy where a number of activities are integrated within or closely related to the commune system This strategy includes industry as only one component of many instruments where improved public health education and improved agricultural technology contribute to achieving such policy objectives as increased employment and productivity

Rural Development in China Xiaotong Fei,1989-05-19 This collection of essays written from 1947 1986 by Fei Hsiao tung China s most distinguished sociologist and anthropologist presents a rich and representative sampling of the research that has characterized his long career In 1936 Fei conducted field work in Kaixian gong a village in Jiangsu province in east China This village became the subject of his now classic study *Peasant Life in China* in which he argued that because of China s huge population and the scarcity of cultivable land household industries such as production of raw silk were vital to the peasants economic survival His conclusions long rejected by China s policymakers have recently been embraced by the government under the political leadership of Deng Xiaopeng Returning to Kaixian gong in 1957 and again in the 1980s Fei examined the changes that had occurred since his initial research Three essays that resulted from these follow up studies are

included in this collection providing a rare summary and analysis of developments in the village between 1936 and 1986 Also included here are four articles based on Fei's 1983-84 research in other areas of Jiangsu province His explorations of the contrast between the wealth of southern Jiangsu and the long standing poverty of the northern half of the province address key issues of public policy in China today Useful to students of rural sociology as well as of Chinese history politics economics and anthropology this collection will provide an overview not only of developments in the small towns of China but also of Fei's thought

Rural Small-Scale Industry in the People's Republic of China Dwight Perkins, 2024-03-29 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977

China's Domestic Private Firms: Anne S. Tsui, Yanjie Bian, 2014-12-18 One of the most important outcomes of market reforms in China over the past 20 years has been the emergence of a significant domestic private sector which now accounts for almost a third of China's GDP and is by far the country's most important source of employment growth This book is the first in depth analysis of the management and operation of these domestic private firms which are defined as companies or organizations created by PRC citizens including township enterprises and collectives The book provides a comprehensive and multidisciplinary perspective on the factors important to the successful operation and growth of these firms It begins with a review of the literature on the topic in three different disciplines economics sociology and management each followed by several chapters covering recent developments in these areas Featuring contributions by distinguished scholars and China experts the work concludes with an insightful chapter on the future of China's public sector in the global economy

China's Economic Dilemmas in the 1990s, 1991 China's Rural Entrepreneurs John Wong, Rong Ma, Mu Yang, Dr. Mu Yang, 1995 Contains 12 essays which describe case studies of ten industries in two counties of eastern Shandong and southern Jiangsu

Regime Legitimacy in Contemporary China Thomas Heberer, Gunter Schubert, 2008-08 Using in depth case studies of a wide range of political social and economic reforms in contemporary China this volume sheds light on the significance and consequences of institutional change for stability of the political system in China The contributors examine how reforms shape and change Communist rule and Chinese society and to what extent they may engender new legitimacy for the CCP regime and argue that authoritarian regimes like the PRC can successfully generate stability in the same way as democracies Topics addressed include ideological reform rural tax for fees reforms elections in villages and urban neighbourhood communities property rights in rural industries endogenous political constraints of transition internalising capital markets the media market in transition the current social security system the labour market environmental policy reforms to anti poverty policies and NGOs Exploring the possibility of legitimate one party rule in China this book is a stimulating and informative read for students and scholars interested in political science and Chinese politics

Rural China in Transition Sam P. S. Ho, 1994 A detailed analysis of the process of rural industrialization in Jiangsu one of China's most productive provinces In the 1980s non agricultural rural enterprise became the most dynamic sector of the Chinese economy The book is based on detailed original data and set within a national context
