Monthly Catalogue, United States Public Documents, 2005 *The UN Declaration on the Rights of Indigenous Peoples* Jessie Hohmann, Marc Weller, 2018-03-09 The rights of indigenous peoples under international law have seen significant change in recent years as various international bodies have attempted to address the question of how best to protect and enforce their rights The United Nations Declaration on the Rights of Indigenous Peoples is the strongest statement thus far by the international community on this issue The Declaration was adopted by the United Nations on 13 September 2007 and sets out the individual and collective rights of indigenous peoples as well as their rights to culture identity language employment health education and other issues While it is not a legally binding instrument under international law it represents the development of international legal norms designed to eliminate human rights violations against indigenous peoples and to help them in combating discrimination and marginalisation This comprehensive commentary on the Declaration analyses in detail both the substantive content of the Declaration and the position of the Declaration within existing international law It considers the background to the text of every Article of the Declaration including the travaux préparatoires the relevant drafting history and the context in which the provision came to be included in the Declaration It sets out each provision's content interpretation its relationship with other principles of international law and its legal status It also discusses the significance and outlook for each of the rights analysed The book assesses the practice of relevant regional and international bodies in enforcing the rights of indigenous peoples providing an understanding of the practical application of the Declaration's principles It is an indispensable resource for scholars students international organisations and NGOs working on the rights of indigenous peoples

New Techniques for Proving Plagiarism M. V. Dougherty, 2024-05-21 This book demonstrates that the principles of textual criticism borrowed from the fields of classics and medieval studies have a valuable application for plagiarism investigations Plagiarists share key features with medieval scribes who worked in scriptoriums and produced copies of manuscripts Both kinds of copyists scribes and plagiarists engage in similar processes and they commit distinctive copying errors When committed by plagiarists these copying errors have probative value for making determinations that a text is copied and hence unoriginal To show the efficacy of the newly proposed techniques for proving plagiarism case studies are drawn from philosophy theology and canon law

web in this interactive simulation users explore the interactions between a compass and a bar magnet and investigate characteristics of electromagnets this resource was developed to help students build a foundation to understand electromagnetism and factors affecting magnetic field strength

faraday s law magnetic field magnets phet interactive - Dec 25 2022

web investigate faraday s law and how a changing magnetic flux can produce a flow of electricity sample learning goals explain what happens when the magnet moves through the coil at different speeds and how this affects the brightness of the bulb and the magnitude sign of the voltage
