Concert Life In London From Mozart To Haydn:

Concert Life in London from Mozart to Haydn Simon McVeigh, 2006-11-02 During the second half of the eighteenth century the pace of London's concert life quickened dramatically reflecting both the prosperity and the commercial vitality of the capital. The most significant development was the establishment of the public concert within the social and cultural life of fashionable society. The subscription concerts that premiered symphonies by J C Bach and Haydn were conspicuous symbols of luxury even though they were promoted on broadly commercial lines. Drawing on hitherto untapped archival sources and a comprehensive study of daily newspapers this book analyses audiences at venues as diverse as the Hanover Square Rooms, Vauxhall Gardens and City taverns. The musical taste of the London public is investigated in the light of contemporary theories of aesthetics and there is detailed discussion of the financial and practical aspects of concert management and performance in a period that encouraged enterprise and innovation.

Concert Life in London from Mozart to Haydn

Simon McVeigh, 1993-08-19 Concerts flourished in London during the second half of the eighteenth century as never before. Enterprising promoters developed subscription series around the new symphony orchestra and the lucrative environment attracted both Mozart and Haydn whose last twelve symphonies were written for London. This book is the first detailed investigation of a lively and innovative period in London's cultural life combining a social study of concert audiences with analysis of their musical tastes and the repertoire they inspired.

Mozart, Haydn and Early Beethoven

Daniel Hertz, 2015-05-27 A vivid portrait of Mozart and Haydn's greatest achievements and young Beethoven's works under their influence. Completing the trilogy begun with *Haydn, Mozart and the Viennese School 1740-1780* and continued in *Music in European Capitals: The Galant Style 1720-1780*, Daniel Hertz concludes his extensive chronicle of the Classical Era with this much anticipated third volume. By the early years of the nineteenth century, Haydn, Mozart and Beethoven had become a catchphrase, a commonplace expression signifying musical excellence. Indeed, even in his early career, Beethoven was hailed as the only musician worthy to stand beside Haydn and Mozart. In this volume, Hertz winds up the careers of Haydn and Mozart who during the 1780s produced their most famous and greatest works and describes Beethoven's first decade in Vienna during which he began composing by patterning his works on the two masters. The tumult and instability of the French Revolution serves as a vivid historical backdrop for the tale.

Concert Life in Eighteenth-Century Britain

Susan Wollenberg, 2017-07-05 In recent years there has been a considerable revival of interest in music in eighteenth-century Britain. This interest has now expanded beyond the consideration of composers and their music to include the performing institutions of the period and their relationship to the wider social scene. The collection of essays presented here offers a portrayal of concert life in Britain that contributes greatly to the wider understanding of social and cultural life in the eighteenth century. Music was not merely a pastime but was irrevocably linked with its social, political and literary contexts. The perspectives of performers, organisers, patrons, audiences, publishers, copyists and consumers are considered here in

relation to the concert experience All of the essays taken together construct an understanding of musical communities and the origins of the modern concert system This is achieved by focusing on the development of music societies the promotion of musical events the mobility and advancement of musicians systems of patronage the social status of musicians the repertoire performed and published the role of women pianists and the topography of concerts In this way the book will not only appeal to music specialists but also to social and cultural historians
