revelation the revelation of God through nature and special revelation that will aid in helping one come to a saving knowledge of the faith in our Creator Lastly this handbook will examine the issue of eternity How do we know that there is life after death What can we do here and now to prepare for life after death The author hopes that this brief and concise handbook on the Philosophy of Religion will help the reader to see more clearly that belief in God is not some blind faith or leap into the dark as Soren Kierkegaard once said but in fact belief in God or Theism can be defended by philosophical arguments and is a completely rational belief Philosophy of Religion is not an intellectual waste of time rather it will aid the Theist to be better defenders of the faith I Peter 3 15
