P. Frolov, 2025-12-08 Originally published in 1937 Pavlov and his School provides fascinating biographical information about Pavlov himself and is a clear and concise account of the theory of conditioned reflexes demanding no extensive knowledge of nervous physiology It shows by numerous examples from everyday life the application of Pavlov s teaching to subjects not generally associated with physiology To the specialist its account of the work of Pavlov s predecessors which was not generally known and of Pavlov s philosophy should have particular interest giving as it does a clear picture of the circumstances which led to the evolution of Pavlov s method of investigating higher nervous activity One of the most cited psychologists of the twentieth century Pavlov s legacy lives on today in many forms including through his studies of classical conditioning which continue to be central to modern behaviour therapy *Conditioned Reflexes* I. Pavlov, 2015-03-09 2015 Reprint of 1927 Edition Full facsimile of the original edition Not reproduced with Optical Recognition Software Pavlov s description on how animals and humans can be trained to respond in a certain way to a particular stimulus drew tremendous interest from the time he first presented his results His work paved the way for a new more objective method of studying behavior The impact on Pavlov s work on all subsequent psychological thought has been overwhelming and the volume remains the best introduction to his contributions Until this work appeared Pavlov s findings were known only through individual monographs most of which had appeared in hard to find periodicals published in Eastern Europe In a series of lectures delivered in 1924 however Pavlov reviewed his entire course of experiments summarized his conclusions and outlined his psychological system This book which is an expanded version of these lectures is still an important statement of Pavlov s work **Lectures on Conditioned Reflexes ...: Twenty-five years of objective study of the higher nervous activity (behaviour) of animals ... translated from the Russian by W.H.
