Joseph,Christine P.W. Wong,David Zweig,2020-10-26 Since the Cultural Revolution data have been uncovered to illuminate that tumultuous decade In this volume 13 scholars examine the gap between the ideology of the Revolution and the harsh and contradictory reality of its outcome They focus particularly on the violence coercion and constant tension between the need for centralization to enforce policies and the need for

decentralizing decision making if those goals were to be achieved *Finding Women in the State* Zheng Wang, 2016-11-01

Finding Women in the State is a provocative hidden history of socialist state feminists maneuvering behind the scenes at the core of the Chinese Communist Party. These women worked to advance gender and class equality in the early People's Republic and fought to transform sexist norms and practices all while facing fierce opposition from a male-dominated CCP leadership from the Party Central to the local government. Wang Zheng extends this investigation to the cultural realm showing how feminists within China's film industry were working to actively create new cinematic heroines and how they continued a New Culture anti-patriarchy heritage in socialist film production. This book illuminates not only the different visions of revolutionary transformation but also the dense entanglements among those in the top echelon of the party. Wang discusses the causes for failure of China's socialist revolution and raises fundamental questions about male dominance in social movements that aim to pursue social justice and equality. This is the first book engendering the PRC high politics and has important theoretical and methodological implications for scholars and students working in gender studies as well as China studies.
