unconditional reality that the tourism industry in Asia is becoming exposed to innovative technologies more than ever before. This book reports the latest research in the application of innovative technology to the tourism industry covering the perspectives, innovativeness, theories, issues, complexities, opportunities, and challenges affecting tourism in Asia. A blend of comprehensive and extensive efforts by the contributors and editors, it is designed especially to cover technology applications in tourism fairs, festivals, and events in Asia. The application and practice of technologies in tourism, including the relevant niches of fairs, festivals, and events, are also covered with a focus on the importance of technology in tourism. This book highlights, in a comprehensive manner, technologies that are impacting the tourism industry in Asia, as well as the constraints it is facing. It deals with distinct topics such as tourism promotion, technology-driven sustainable tourism development, social media accessibility, and so on, to cover fairs, festivals, and events. This book is a significant contribution towards the very limited knowledge in this identified research area, with examples from selected Asian countries. This book is designed to accommodate both qualitative and quantitative research, linking theory and practice. This book has a clear focus on outlining the research issues. Each chapter of the book highlights a methodology that was used, with rationale for its use. This book addresses a number of revisions that unify the theme or framework to integrate the chapters.
