Silk and Potatoes Adam Roberts, 2022-06-08 This study constitutes the first to analyse the remarkable surge in popularity of Arthurian literature and art in the modern period from a broad range of instances of cultural production More novels with Arthurian themes have been published since the war than in any previous period and *Silk and Potatoes* provides detailed readings of some of the most famous including works by Marion Zimmer Bradley Anthony Burgess C J Cherryh Guy Gavriel Kay Mary Stewart Jack Vance and T H White In addition to examining Arthurian fiction with chapters on the general novel Historical fiction and Science Fiction this study examines the key cinematic examples of Arthuriana Boorman's *Excalibur* Bresson's *Lancelot du Lac* Rohmer's *Perceval Le Gallois* and Monthly Python and the Holy Grail A further chapter goes on to look at the myriad other forms of cultural production based on Arthurian themes from Bugs Bunny to Pop Music from the Camelot of JFK to the British National Lottery This is a study that touches on many aspects of Arthuriana whilst developing two connected arguments about on the one hand the necessary anachronism of any modern Arthurian Literature and on the other the aesthetic political implications of this literature's success The whole whilst rooted in the scholarly debates on the enduring appeal of King Arthur is written in an accessible and entertaining style It will be of interest to students and teachers of Arthurian literature film and popular culture

On the Other Side of Sorrow James Hunter, 2014-07-03 Caring for the environment developing rural communities and ensuring the survival of minority cultures are all laudable objectives but they can conflict and nowhere more so than the Scottish Highlands As environmentalists strive to preserve the scenery and wildlife of the Highlands the people who belong there and who have their own claims on the landscape question this threat to their culture which dates back thousands of years In this acclaimed and thought provoking book James Hunter examines the dispute between Highlanders who developed a strong environmental awareness countless generations before other Europeans and conservationists whose thinking owes much to the romantic ideals of the nineteenth century More than that he also suggests a new way of dealing with the problem advocating drastic land use changes and the repopulation of empty glens an approach which has worldwide implications
