Cézanne's Composition Erle Loran, 2006 Praise for the first edition I have learned a great deal from his book about modern painting in general Loran devotes his attention mainly to Cezanne s concrete means and methods and he arrives thereby at an understanding of Cezanne s art more essential than any other I have seen in print Clement Greenberg Nation

Cezanne's Composition Erle Loran, 2023-12-22 Erle Loran s C zanne s Composition offers a comprehensive and analytical exploration of the compositional techniques used by Paul C zanne emphasizing form color and space organization Far from being a traditional art critique this book presents a methodical study of C zanne s revolutionary approach to space composition shedding light on aspects of his work that have often been misunderstood or overlooked Loran provides clear diagrams and photographs that demonstrate C zanne s techniques making it accessible to artists students and scholars alike who are interested in a more tangible structured understanding of the artist s process While the book delves into C zanne s unique use of line and color it does not assert that the artist consciously employed all the theoretical principles outlined Instead Loran focuses on providing a practical framework for understanding C zanne s compositions which can be applied more broadly to the study of art He addresses common misconceptions such as the overemphasis of linearity in C zanne s work and clarifies that while C zanne s approach was innovative it still adhered to a fundamental structure Loran s approach is ideal for those seeking a grounded demonstrable analysis of painting without straying into subjective interpretations of the creative process making it a valuable resource for those who wish to explore C zanne s influence on modern art This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1943 *Cézanne's Composition* Erle Loran, 1985 *The Art of Cézanne* Kurt Badt, 1965 An analytical study of the work of Cezanne throwing light on the entire scope individuality and significance of his art
