we might call stereoscopic juxtaposing like the optical stereoscope two images of the same object seen from slightly different perspectives Isak Winkel Holm argues that Kafka's stereoscopic style is crucial to an understanding of the relation between literature and politics in Kafka's work At the level of content the stereoscopic style offers a representation of the basic order of a specific community At the level of form the stereoscopic style is structured as the juxtaposition of two dissimilar images of the same community At the level of function finally the style provokes a reconsideration and perhaps even a reconfiguration of the social order itself With insights from literary studies philosophical aesthetics and political theory Kafka's Stereoscopes offers a detailed but highly readable argument for the relevance of Kafka's literary works in today's political reality

Kafka René Marill-Albérès, Pierre de Boisdeffre, 2014-11-04 This is a study of Kafka's tragic vision of life his profoundly disturbing awareness of man's utter loneliness in a pitiless universe and his artistry in effecting a strange intimate fusion between symbolism and realism between anguished poetic narration and the terrifying reality of an absurd and ambiguous environment The book discusses the historical setting the literary currents and the personal details affecting the development of Kafka's genius his isolation in a labyrinthine universe his sufferings sickness and death his influence and survival through his art The central idea of the book is summed up in a quotation from Jean Paul Sartre I have nothing to say about Kafka except that he is one of the rarest and greatest writers of our time The authors are specialists in contemporary literature Translated from the French by Wade Baskin
