makes you wonder why no one ever thought of the Bible as a the most comprehensive book of sage marriage advise Until now Skeptics may say they are not credible they don t use a scientific approach or technical terms or they don t have degrees in psychology but would you rather trust a marriage counselor whose personal background you don t know and for all you know is also dealing with their own broken marriage Or would you be more interested in listening to a couple who has been successfully dealing with the highs and lows of marriage and so far have been living their own version of happily ever after for forty eight years
