Being Human, Being Migrant Anne Sigfrid Grønseth, 2013-10-01 Migrant experiences accentuate general aspects of the human condition Therefore this volume explores migrant s movements not only as geographical movements from here to there but also as movements that constitute an embodied cognitive and existential experience of living in between or on the borderlands between differently figured life worlds Focusing on memories nostalgia the here and now social experiences of daily living and the hopes and dreams for the future the volume demonstrates how all interact in migrants and refugees experience of identity and quest for well being

The Sacred Purpose of Being Human Jacquelyn Small, 2005-09-15 Noted psychologist Jacquelyn Small helps us break the cycle of addictive behavior destructive relationships and self harm by teaching that we are not human beings learning to be spiritual we are spiritual beings learning to be human Jacquelyn Small s 12 Principles of Wholeness developed in her 30 year clinical practice provide a one year process of psychospiritual inner work Blending ancient wisdom and modern science this process has led client after client to the personal transformation of addictive living that precedes spiritual awakening The readings exercises and guided imageries in this book will help you access blocked emotions and modify the basic patterns buried within you that are holding unwanted behaviors in place You will learn how to Release stuck emotions through inner work designed to heal your past Identify pseudo personalities that masquerade as your true self Create the inner space required for a spiritual awakening to occur naturally

The Art of Being Human Papa Joe Coslett, 2023-05-01 Man has been domesticated for many centuries He no longer understands what he is or how he is supposed to think Universal laws always promote the common good of man when used properly Learn how we work as humans and begin to understand this game we call life Learn the rules to the game and play like your life depends upon it In reality it does You can choose to live a life of blessings or a life of misery Learn the guides you choose to live an extraordinary life or choose not to and others will teach you to suffer for playing the fool Only you can choose I can influence but you must do the work Learn to live an extraordinary life and truly enjoy the journey

Being Human: Relationships and You Knud S. Larsen, Reidar Ommundsen, Kees van der Veer, 2015-04-08 This book represents a new look at social psychology and relationships for the discerning reader and university student The title of the book argues forcefully that the very nature of being human is defined by our relationships with others our lovers family and our functional or dysfunctional interactions Written in easy to follow logical progression the volume covers all major topical areas of social psychology with results of empirical research of the most recent years included A common project between American and European social psychologists the book seeks to build a bridge between research findings in both regions of the world In doing so the interpretations of the research takes a critical stand toward dysfunction in modern societies and in particular the consequences of endless war and repression Including topics as varied as an overview of the theoretical domains of social psychology and recent research on morality justice and the law the book promises a stimulating introduction to

contemporary views of what it means to be human A major emphasis of the book is the effect of culture in all major topical areas of social psychology including conceptions of the self attraction relationships and love social cognition attitude formation and behavior influences of group membership social influence persuasion hostile images aggression and altruism and moral behavior

Education and Science Christopher K. Slaton Ed.D.,2022-04-26 *The Brain's Body Help to Improve Brain Body and Sense Events* is one of those self improvement books that help readers understand how action research can lead to a more integrated and advanced life Paraphrasing Wikipedia action research is a method of transformative change while simultaneously acting and doing research This self improvement book guides readers through the benefits of action research to help them live more effectively as they decide how to respond to different circumstances The author provides examples of action research and elaborates on how human centered systems thinking can impact the neurological operation of the brain It might be one of the best books about self improvement that connects several interrelated elements that affect our lives including self examination studying those around us the environment and our sense of being or Self In the book he connects these interrelated elements and their impact on our behaviors to help readers overcome hurt and pain

What is Essential to Being Human? Margaret S. Archer,Andrea M. Maccarini,2021-07-14 This book asks whether there exists an essence exclusive to human beings despite their continuous enhancement a nature that can serve to distinguish humans from artificially intelligent robots now and in the foreseeable future Considering what might qualify as such an essence this volume demonstrates that the abstract question of essentialism underpins a range of social issues that are too often considered in isolation and usually justify robophobia rather than robophilia in terms of morality social relations and legal rights Any defence of human exceptionalism requires clarity about what property lies ground it and an explanation of why these cannot be envisaged as being acquired eventually by AI robots As such an examination of the conceptual clarity of human essentialism and the role it plays in our thinking about dignity citizenship civil rights and moral worth is undertaken in this volume *What is Essential to Being Human* will appeal to scholars of social theory and philosophy with interests in human nature ethics and artificial intelligence
