From Caligula to the Nazis John M. McManamon, 2023-12-14 The saga of Caligula's barges sunk in Lake Nemi south of Rome how the huge vessels came to be there in the first place why they became a cult for Mussolini's Fascist regime how they were after multiple attempts recovered from the lake bed and why they were shortly thereafter destroyed is in the words of author John McManamon a good story that is worth telling It has memorable characters twists and turns in the plot no lack of conflict and tension and a dramatic ending where something clearly went wrong In *From Caligula to the Nazis: The Nemi Ships in Diana's Sanctuary* McManamon takes readers on an excursion through history to the fiery ending of the tale a journey propelled by narrative energy and enhanced by the fruits of careful research Related topics include Roman mythology and state religion the erratic reign of the infamous Caligula underwater archaeology as practiced during the Renaissance the ideological exploitation of archaeology by Il Duce and his fascist followers and a historical whodunit to ascertain the choices that led to the arson of the ship remains McManamon covers every chapter in the 2 000 year history of the ships and does not ignore the mistaken interpretations that at times led subsequent researchers into blind alleys In the end *From Caligula to the Nazis* provides for both academic specialists and informed general readers the careful unwinding of a centuries long mystery

Other Works on Empire shows the literary and historical context within which and against which both Conrad and Kipling wrote their masterpieces. These works have deeply influenced later writings that deal with the ambitions, complexities, and failures of imperial projects of cultural influence and political control. English, American, South Asian, and African authors from Saul Bellow to Salman Rushdie have worked with and against the models pioneered by Conrad and Kipling in the late Victorian era; their revolutionary impact is illuminated in this text.

*William Shakespeare's Hamlet, Prince of Denmark* William Shakespeare, 2005. From Longman's new Cultural Edition series, *Hamlet*, edited by Constance Jordan, includes the play and contextual materials from the era of Shakespeare. This edition represents Shakespeare's text as it appears in the most authoritative of early editions, the Folio published in 1623, and it supplies students with useful footnotes to the interpretation of the text. It also includes brief samples of works by Shakespeare's contemporaries in a section entitled *Contexts*, which will help students understand the historical setting and cultural ideas that helped shape the meaning of Shakespeare's play. By listening to these voices from the past, students can approach the play with some knowledge of why Hamlet asks the questions he does and of why the character himself, the creation of a distant century, also seems so much a part of our own world.

The Longman Cultural Edition series is composed of teaching texts edited by prominent scholars. In addition to the recently published Cultural Editions *Frankenstein*, *Pride and Prejudice*, and *Othello*, titles in the series for this year include *Dickens' Hard Times*, *Beowulf*, and *Oscar Wilde's The Picture of Dorian Gray*.

*The Bayeux Tapestry* Gale R. Owen-Crocker, 2023-05-31. This collection of fifteen papers ranges from the author's initial interest in the Tapestry as a source of information on early medieval dress through to her startling recognition of the embroidery's sophisticated narrative structure. Developing the work of previous authors who had identified graphic models for some of the images, she argues that not just the images themselves but the contexts from which they were drawn should be taken into account in reading the messages of the Tapestry. In further investigating the minds and hands behind this, the largest non-architectural artefact surviving from the Middle Ages, she ranges over the seams, the embroidery, the stitches, the language, and the artistry of the inscription, the potential significance of borders, and the gestures of the figures in the main register, always scrutinising detail informatively. She identifies an over-riding conception and house style in the Tapestry but also sees different hands at work in both needlecraft and graphics. Most intriguingly, she recognises a sub-contractor with a Roman source and a clownish wit. The author is Professor of Anglo-Saxon Culture at The University of Manchester, UK, a specialist in Old English poetry, Anglo-Saxon material culture, and medieval dress and textiles.
