The Search for the Real Self James F. Masterson, 1988 Outwardly charming confident and successful individuals may in fact be caught in a knot of self destructive behavior This book looks at case histories and delineates appropriate treatments for each disorder offering a real hope for cure Philosophical Issues in Psychiatry Kenneth S. Kendler, Josef Parnas, 2015-09 This multidisciplinary collection explores three key concepts underpinning psychiatry explanation phenomenology and nosology and their continuing relevance in an age of neuroimaging and genetic analysis This book opens with Dr Kenneth S Kendler s introduction to the philosophical grounding of psychiatric practice Chapters in the first section of the book then address the concept of explanation from the difficulties in describing complex behavior to the categorization of psychological and biological causality In the second section contributors discuss experience including the complex and vexing issue of how self agency and free will affect mental health The third and final section examines the organizational difficulties in psychiatric nosology and the instability of the existing diagnostic system Each chapter includes both an introduction by the editors and a concluding comment by another of the book s contributors Contributors John Campbell PhD Thomas Fuchs MD PhD Shaun Gallagher PhD Kenneth S Kendler MD Sandra D Mitchell PhD Dominic P Murphy PhD Josef Parnas MD DrMedSci Louis A Sass PhD Kenneth F Schaffner MD PhD James F Woodward PhD Peter Zachar PhD This is a serious and important book it is certainly one that researchers scholars and anyone involved in trying to explain the nature of psychiatric disorders to a skeptical audience ought to read British Journal of Psychiatry Kenneth S Kendler MD is the Rachel Brown Banks Distinguished Professor of Psychiatry at the Medical College of Virginia where he is also a professor of human genetics and the director of the Virginia Institute for Psychiatric and Behavioral Genetics He is the author of Genes Environment and Psychopathology Josef Parnas MD DrMedSci is a professor of psychiatry and the consultant medical director for the Department of Psychiatry at Copenhagen University He is the codirector of the National Danish Research Foundation s Center for Subjectivity Research **Practical treatise on the diseases of the uterus, ovaries, and Fallopian tubes, tr. [and abridged] from the 3rd ed. by A. McLaren** Amédée Courty, 1882 Philosophical Issues in Psychiatry IV Kenneth S. Kendler, Josef Parnas, 2017-03-24 The revisions of both DSM IV and ICD 10 have again focused the interest of the field of psychiatry and clinical psychology on the issue of nosology This interest has been further heightened by a series of controversies associated with the development of DSM 5 including the fate of proposed revisions of the personality disorders bereavement and the autism spectrum Major debate arose within the DSM process about the criteria for changing criteria leading to the creation of first the Scientific Review Committee and then a series of other oversight committees which weighed in on the final debates on the most controversial proposed additions to DSM 5 providing important influences on the final decisions Contained within these debates were a range of conceptual and philosophical issues Some of these such as the definition of mental disorder or the problems of psychiatric epidemics have been with the

field for a long time Others the concept of epistemic iteration as a framework for the introduction of nosologic change are quite new This book reviews issues within psychiatric nosology from clinical historical and particularly philosophical perspectives The book brings together a range of distinguished authors including major psychiatric researchers clinicians historians and especially nosologists including several leaders of the DSM 5 effort and the DSM Steering Committee It also includes contributions from psychologists with a special interest in psychiatric nosology and philosophers with a wide range of orientations The book is organized into four major sections The first explores the nature of psychiatric illness and the way in which it is defined including clinical and psychometric perspectives The second section examines problems in the reification of psychiatric diagnostic criteria the problem of psychiatric epidemics and the nature and definition of individual symptoms The third section explores the concept of epistemic iteration as a possible governing conceptual framework for the revision efforts for official psychiatric nosologies such as DSM and ICD and the problems of validation of psychiatric diagnoses The book ends by exploring how we might move from the descriptive to the etiologic in psychiatric diagnoses the nature of progress in psychiatric research and the possible benefits of moving to a living document or continuous improvement model for psychiatric nosologic systems The result is a book that captures the dynamic cross disciplinary interactions that characterize the best work in the philosophy of psychiatry
