Foucault and Law Peter Fitzpatrick, 2017-07-05 Few thinkers can have had a more diverse or a more contested impact on theorizing law than Michel Foucault This diversity is reflected in the wide range of Foucault s work and of the intellectual fields it has so conspicuously influenced Such diversity informs the present collection and is signalled in the headings of its four sections Epistemologies archaeology discourse Orientalism Political philosophy discipline governmentality and the genealogy of law Embodiment difference sexuality and the law The subject of rights and ethics Whilst the published work selected for this collection amply accommodates this diversity it also draws together strands in Foucault s work that coalesce in seemingly conflicting theories of law Yet the editors are also committed to showing how that very conflict goes to constitute for Foucault an integral and radical theory of law This theory ranges not just beyond the restrained and diminished conceptions of law usually derived from Foucault but also beyond the characteristic concern in Jurisprudence and Legal Philosophy to constitute law in its difference and separation from other socio political forms

Migrants and Race in the US Philip Kretsedemas, 2013-10-23 This book explains how migrants can be viewed as racial others not just because they are nonwhite but because they are racially alien This way of seeing makes it possible to distinguish migrants from a set of racial categories that are presumed to be indigenous to the nation In the US these indigenous racial categories are usually defined in terms of white and black Kretsedemas explores how this kind of racialization puts migrants in a quandary leading them to be simultaneously raced and situated outside of race Although the book focuses on the situation of migrants in the US it builds on theories of migrants and race that extend beyond the US and

makes a point of criticizing nation centered explanations of race and racism These arguments point toward the emergence of a new field visibility that has transformed the racial meaning of nativity migration and migrant ethnicity It also situates these changing views of migrants in a broader historical perspective than prior theory explaining how they have been shaped by a changing relationship between race and territory that has been unfolding for several hundred years and which crystallizes in the late colonial era *The Journal of American-East Asian Relations* ,2001 *Asian Law Journal* ,2003 **Michigan Law Review** ,2002 *The North Carolina journal of international law and commercial regulation* ,2000 *Globalization and America* Angela J. Hattery,David G. Embrick,Earl Smith,2008-05-21 As globalization expands more than goods and information are traded between the countries of the world Hattery Embrick and Smith present a collection of essays that explore the ways in which issues of human rights and social inequality are shared globally The editors focus on the United States role in contributing to human rights violations both inside and outside its borders Essays on contemporary issues such as immigration colonialism and reparations are used to illustrate how the U S and the rest of the world are inextricably linked in their relationships to human rights violations and social inequality Contributors include Judith Blau Eduardo Bonilla Silva and Joe R Feagin *Choice* ,2004 *Journal of Asian American Studies* ,2000 **Cornell Law Review** ,1999 **In Sight of America** Anna Pegler Gordon,2002 Positioned at the intersection of immigration history and visual culture this dissertation links original archival research on federal immigration policy with detailed readings of photographic collections photographers and individual images Drawing on numerous immigrant case files this study presents a new perspective on U S immigration policy that recognizes the central role of visibility within history *University of Detroit Mercy Law Review* ,1999 "In the Eye of the Law" Mark Allan Golub,2006 **Playing (with) Stereotypes** Minh-Hà T.
