philosophy that creating appealing library displays is easy fun and economical The author explains why promotions are necessary and tells where to place the displays when to put them up and when to take them down what materials to use and where to find them how to build and use a mannequin how to draw when you think you can't and how to use color Readers will also find tips on using and creating brochures and handouts building displays that can be used more than once scrounging and using props and ideas and lastly how to store everything for further use
