Watkins, 2021-07-01 In the decades before the Civil War Americans appealed to the nation s sacred religious and legal texts the Bible and the Constitution to address the slavery crisis The ensuing political debates over slavery deepened interpreters emphasis on historical readings of the sacred texts and in turn these readings began to highlight the

unbridgeable historical distances that separated nineteenth century Americans from biblical and founding pasts While many Americans continued to adhere to a belief in the Bible s timeless teachings and the Constitution s enduring principles some antislavery readers including Theodore Parker Frederick Douglass and Abraham Lincoln used historical distance to reinterpret and use the sacred texts as antislavery documents By using the debate over American slavery as a case study Jordan T Watkins traces the development of American historical consciousness in antebellum America showing how a growing emphasis on historical readings of the Bible and the Constitution gave rise to a sense of historical distance

*Black Lives Matter in US Schools* Boni Wozolek,2022-07-01 Winner of the 2023 Outstanding Book Award presented by the Division B of the American Educational Research Association

Black Lives Matter in US Schools critically examines the relationship between schooling and sociocultural abolitionist movements such as BlackLivesMatter Aligning with a long history of education scholars who have insisted on the enmeshed nature of schools and society the book addresses the role of various forms of curricula that perpetuate anti Blackness while simultaneously shaping Black ways of being knowing and doing While its focus tends toward issues of normalized violence Black Lives Matter in US Schools is equally concerned with possibilities for justice stemming from curricular change and affects like hope and love that are central to radical acts of resistance to oppression Themes range from critical literacies to IQ tests from Afro surrealism to historiography as the book strategically tacks between traditional forms of qualitative and quantitative research and more personal narratives Black Lives Matter in US Schools speaks powerfully against the continued onslaught of inequities in schools and their communities working to create space for forms of learning that are responsible to and for Black lives
