## **Dissertations Contre Corneille:**

**Dissertations contre Corneille** François Hedelin d' Aubignac, 1995 *Dissertations Contre Corneille* chronicles one of the great literary controversies of seventeenth century France In 1663 François Hedelin l'abbé d' Aubignac published four dissertations in which he criticised with increasing ferocity the most famous and greatest playwright of the century Corneille The first dissertation attacks Sophonisbe the second Sertorius the third Oedipe and the fourth concentrates on the personality of Corneille This is the first edition of these writings to be published since the eighteenth century and will be of importance for scholars of seventeenth century French literature [Confidential Strategies](#) Valerie Worth-Stylianou, 1999

[Self-Commentary in Early Modern European Literature, 1400-1700](#) Francesco Venturi, 2019-05-15 This volume investigates the various ways in which writers comment on present and defend their own works and at the same time themselves across early modern Europe A multiplicity of self commenting modes ranging from annotations to explicatory prose to prefaces to separate critical texts and exemplifying a variety of literary genres are subjected to analysis Self commentaries are more than just an external apparatus they direct and control reception of the primary text thus affecting notions of authorship and readership With the writer understood as a potentially very influential and often tendentious interpreter of their own work the essays in this collection offer new perspectives on pre modern and modern forms of critical self consciousness self representation and self validation Contributors are Harriet Archer Gilles Bertheau Carlo Caruso Jeroen De Keyser Russell Ganim Joseph Harris Ian Johnson Richard Maber Martin McLaughlin John O'Brien Magdalena Oarska Federica Pich Brian Richardson Els Stronks and Colin Thompson [All the Abbé's Women](#) Bernard J. Bourque, 2015-05-27 One of the most striking aspects of abbé d' Aubignac's fictional output is that the principal focus of his work is women D' Aubignac's attempt to articulate his philosophy about the female sex is very much an intricate balancing act While he is clearly interested in women placing them on a pedestal in many of his writings the abbé imposes limitations on their perceived innate qualities and often embraces the notion of the female as a societal scapegoat *All the Abbé's Women* explores how these ideas were influenced by the socio political conditions of d' Aubignac's time resulting in a complex inter relationship between the notions of power and misogyny in the author's fictional and critical works The study also aims to contribute to the scholarship on d' Aubignac painting a portrait of the abbé that has not been the focus of previous books The work will appeal to students of French literature gender studies and the cultural history of Early Modern France Back cover

[Women Writing Antiquity](#) Helena Taylor, 2024-04-15 *Women Writing Antiquity* argues that the struggle to define the female intellectual in seventeenth century France lay at the centre of a broader struggle over the definition of literature and literary knowledge during a time of significant cultural change As the female intellectual became a figure of debate France was also undergoing a shift away from the dominance of classical cultural models the transition towards a standardized modern language the development of a national literature and literary canon and the emergence of the literary field This

book explores the intersection of these phenomena analyzing how a range of women constructed the female intellectual through their reception of Greco Roman culture Women Writing Antiquity offers readings of known and less familiar works from a diverse corpus of translators novelists poets linguists playwrights essayists and fairy tale writers including Marie de Gournay Madeleine de Scud ry Madame de Villegri Antoinette Deshouli res Marie Jeanne L H ritier and Anne Dacier Challenging traditionally formalist and source text orientated approaches the study reframes classical reception in terms of authorial self fashioning and professional strategy and explores the symbolic value of Latin literacy to an author s projected identity These writers used reception of Greco Roman culture to negotiate the value attributed to different genres the nature of poetics the legitimacy of varied modes of authorship the qualities and properties of French and even how and by whom these topics might be debated Women Writing Antiquity combines a new take on the literary history of the period with a retelling of the history of the figure of the learned woman
