Distant Echoes Medieval Religious Women Volume One:

Medieval Religious Women: Distant echoes John A. Nichols, Lillian Thomas Shank, 1984 *Medieval Religious Women, Vol 1: Distant Echoes [Cistercian Studies Series 71]*. J.A. Nichols, L.T. Shank, 1984 [Women's Monasticism and Medieval Society](#) Bruce L. Venarde, 2018-05-31 In this engaging work Bruce L Venarde uncovers a largely unknown story of women's religious lives and puts female monasticism back in the mainstream of medieval ecclesiastical history To chart the expansion of nunneries in France and England during the central Middle Ages he presents statistics and narratives to describe growth in broad historical contexts with special attention to social and economic change Venarde explains that in the years 1000-1300 the number of nunneries within Europe grew tenfold In the eleventh and twelfth centuries religious institutions for women developed in a variety of ways mostly outside the self-conscious reform movements that have been the traditional focus of monastic history Not reforming monks but wandering preachers bishops and the women and men of local petty aristocracies made possible the foundation of new nunneries In times of increased agrarian wealth decentralization of power and a shortage of potential spouses many women decided to become nuns and proved especially adept at combining spiritual search with practical acumen This era of expansion came to an end in the thirteenth century when forces of regulation and new economic realities reduced radically the number of new nunneries Venarde argues that the factors encouraging and inhibiting monastic foundations for men and women were much more similar than scholars have previously assumed *Ellerton Priory* Emma Watson, 2014 **The First Franciscan Woman** Margaret Carney, 1993 Explores the life of Clare of Assisi and her influence on those around her Introduction **Humanities**, 1986 [Medieval Religious Women](#) John A. Andersen, 2000 Mechthild of Magdeburg's singular book *Das Fließende Licht der Gottheit* *The Flowing Light of the Godhead* must be accounted one of the most significant texts in German that we have from the thirteenth century As a piece of first-rate imaginative writing in the vernacular it is a highly rewarding text for those interested in medieval literature and women's writing It is also of considerable interest to historians and theologians as a document of female spirituality This introduction to Mechthild's extraordinary account of her revelations and of her relationship with God and with her contemporaries makes Mechthild's book more accessible to the English speaker It takes as its central focus the multi-voiced nature of Mechthild's writings suggesting ways of reading her work through an analysis of key voices in the text i the social-historical voice of Mechthild as beguine and nun ii the authorial voice iii the voice of the mystic and prophet with particular reference to the influence of the Psalter and the Song of Songs iv the temporal voice of the visionary at the intersection of Mechthild's
